	29,912 0 82	29,912 0 32	12,489 5 16	12,489 5 16	757 0 0	757 0 0

Increase.		Decrease.	
	P. f. c.		P. f. c.
Increase on Goods ..	2,735 17 73	Decrease on Grain ..	5,922 0 8
On anchorage ...	127 18 0		
	2,862 35 73		
Decrease on y <sup>e</sup> . whole.	3,059 0 15		
Pags.	5,922 0 8	Pags.	5,922 0 8

The Increase on Goods proceeds part from the arrival of the Macao ships which lost their passage last year but mostly from the quantitys of raw silk &c. goods from Bengal.

The decrease on grain is from the difference of the prices of last year and this.

*The state of the Land Customs for the years 1738 and 1739 compared one with the other.*

TO THE HON'BLE RICHARD BENYON ESQR.,  
PRESIDENT & GOVERNOUR &c., COUNCIL OF FORT ST. GEORGE.

Hon'ble sir and sirs,

According to a standing order from the Hon'ble Court of Directors I now lay before you a state of the expences and revenues of this settlement and its subordinates on this coast for the last year compared with those of the former, by which your honour &c. may judge of the proper directions that are to be given in relation thereto.

## CONSULTATION, MONDAY, THE 4TH FEBRUARY, 1739/40.

\* \* \* \*

General letters Nos. 16 and 17 both from the Deputy Governour and Council of Fort St. David read, the first dated the 26th ultimo serving only to cover invoice and bill of the cloth sent us on the *Mary*. The other of the 29th ultimo advising of the present they had made to Subderally Cawn and representing the necessity of their making presents also to Hassanally Cawn and the Nabob whom they shortly expect in their neighbourhood and desiring our directions thereupon.

The Board having considered the said letter and being of opinion with the gentlemen at Fort St. David that there will be no avoiding those presents, it's agreed to permit the Deputy Governour and Council to act therein as they see necessary and to send them overland this evening three peices of velvets and two peices of embossed cloth to help them out, having nothing else in our warehouse fit for such occasions.

\* \* \* \*

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

## CONSULTATION, MONDAY, THE 25TH FEBRUARY, 1739/40.

\* \* \* \*

The Assaymaster acquaints the Board that the country mints having greatly debased the gold mohurs, several of the shroffs had been with him and offered to send their gold into our mint if we would coin it into mohurs of ninety-five touch, and as none at the Board could recollect our having coined any mohurs in our mint, the Assaymaster produced the mint accounts of 1703 & 1704, wherein there were several instances of it, and the Braminy being ordered to search the Phirmaunds, produced one from Assad Cawn in the year 1692, whereby it appears we had many years since a grant for coining that species of money.

Agreed therefore that the Assaymaster do receive and coin all such gold as the shroffs and other merchants shall deliver into the mint to be coined into gold mohurs of ninety-five touch.

\* \* \* \*

CONSULTATION, THURSDAY, the 6<sup>TH</sup> MARCH, 1739/40.

\* \* \* \* \*

A petition from Messrs. Burton and Saunders read as entered hereafter requesting grants for a peice of waste ground lying between their houses and the Town Wall, upon the same terms as Messrs. Powney, Hart and others formerly had grants of the waste ground lying behind their houses.

Ordered that the Paymaster measure the said waste ground, and afterwards that the Secretary draw out bills of sale for the same with the usual clause of resumption.

A petition also read from the inhabitants of the west side of Charles Street, setting forth as contained in the said petition entered hereafter, which being

considered by the Board, and that the wharfing set forth therein was necessary and what has prevented the damage to be apprehended from the sett of the river on that side the town, particularly in the time of the freshes, and that the said inhabitants have been at a great expence to make the ground good within the said wharfing; it was agreed that the request of the said inhabitants was very reasonable and therefore ordered that the Paymaster measure the said new-made ground as it is now possessed by the petitioners and that afterwards the Secretary draw out separate grants for the same to be signed by the Board.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—WILLIAM MONSON.

The humble petition of SAMUEL HARRISON, CHRISTOPHER CRADDOCK, WILLIAM PERCIVAL, NAZAR JACOB JAN, FRANCOISCO CARVALHO

Sheweth,

That the river washing the Town Wall to the westward, not only endangered the said wall and the adjacent buildings, but by the ebbing and flowing of the said river left shallow grounds and low swamps, which by the heat of the sun became a nuisance to the town; your petitioners at a very great expence and trouble have effectually prevented and remedied these mischiefs by building a wharf wall upon a foundation of brick wells, sunk and filled up with lime stones and other materials for cement. Your petitioners have also faced the said wharf wall with iron stone and raised thereon brick pallisadoes to the great ornament of the river and beautifying the prospect of the town.

Your petitioners shew that in consequence thereof several peices of grounds have been taken out of the river, which peices of grounds may be very useful to your petitioners houses and grounds thereto adjacent. Your petitioners therefore humbly pray that by a grant from this Hon'ble Board the said grounds so gained from the river may be appropriated unto your petitioners and their heirs for ever, according to the proportions now possessed by your petitioners.

And your petitioners as in duty bound shall ever pray.

CONSULTATION, MONDAY, the 10<sup>TH</sup> MARCH 1739/40.

Mr. Prince having been directed to attend, he was called in, and the musters of our izzarees, and fine long cloths and salampores being shewn him, and he acquainted with the faults complained of from England in those sorts of goods, as that the izzarees made here are too thin and that the fine long cloths and salampores from Ingeram are of too soft a thread and not well cured, it was demanded of him whether he could provide any and what quantity of those sorts in the year free of the faults complained of. He seemed doubtfull of being able to procure above five hundred peices of the izzarees agreeable to the muster, but promised his best endeavours to encrease the quantity, it being recommended to him to make it, if he can, a thousand peices. As to the fine long cloths and salampores he could not say how much he might be able to get and the Board beleiving he cannot procure more than will be wanted, recommended it to him to get all he can that is good, directing him to send up what he may have ready in August brown, but to whiten what more he may have to send up in December (as there will not be time to do it here for the ships to be dispatched at that season) and to endeavour to mend the defect complained of in the colour. He was also directed to use his utmost care to prevent in future the complaints that have repeatedly been made from England that the Ingeram cloths do not answer the lengths and breadths specified in the invoices.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—WILLIAM MONSON—GEORGE TORRIANO.

THE EXTRAORDINARY EXPENCE IN THE FORT ST. DAVID AND VIZAGAPATAM PAYMASTERS ACCOUNTS FOR THE MONTHS OF SEPTEMBER, OCTOBER, NOVEMBER AND DECEMBER, ARE AS FOLLOW.

In breadth from east to west ... ..	16½

Mr. Saunders's proportion—

In length	...	...	...	...	...	91
In breadth	...	...	...	...	...	18

The vallues of these last computed at the Company's usual rate are as follow :—

	Eng. Feet.	Eng. Jentue ft.	Jentue feet.	
Mr. Burton's length 46	at 100 for 115	is 52 14/16 <sup>th</sup>	multiplied by	
the breadth 16½	or	18 15/16	makes Jentue	
feet 1003 12/16ths at Pags. 2½	for every 60 feet is	Pagodas 41 30 0.		
Mr. Saunders's length 91	or	104 10/16ths		
breadth 18	or	20 11/16ths	makes Jentue	
feet 2166 4/16 at Pags. 2½	for every 60 feet is	Pagodas 90 9 0.		

I am, Hon'ble sir and sirs, Your most humble servant,

Fort St. George,  
26th March, 1740.

NICHOLAS MORSE,  
Paymaster.

#### CONSULTATION, WEDNESDAY, THE 30TH APRIL, 1740.

The President acquaints the Board he has received advice from Imaum Sahib that the design of the Morattas to enter this province is no longer to be doubted, and though the Nabob was setting out towards the borders, there is not a force sufficient in the province to withstand them and they will certainly be soon at Arcot if some other means are not thought of to stop them.

Ordered that the Paymaster do make all the dispatch possible to compleat such of the repairs as were thought necessary in consultation the 14th of August last, particularly the wall from New Point to the Blockhouse and a palisado of redwood from thence to the sea, it being very easy for an enemy to force their way by that point and then the whole Black Town will lye open to them, there being no wall between that point and the White Town.

The President puts the Board in mind it is time to consider of making some provision for the China ship and adds that some tinn being lately arrived at this place and St. Thome, the French agents had come up to agree for the purchase, upon hearing which, he had sent for the owners of the Junk Ceyloan ship to treat with them about the purchase of their tinn, which may be about two hundred candy, that they asked two and forty for it, but at last agreed to let the Company have it at thirty-nine, if the Board thought fit to give so much; and it being considered that there is but one Macao ship upon the coast and that if we can prevent the tinn falling into the hands of the French it may be one means to hinder a ship being sent from Pondichery this season, that tinn sold for upwards of thirteen tale a *pecul* last year in China, and that we may reasonably expect the same or a better price for what goes upon our ship if we can prevent any quantities being carried by others, it was agreed to give Telesinga Chitty and the other owners of the Junk Ceyloan ship thirty-nine (39) Pagodas per candy for their tinn, and that the President be desired to send proper persons to contract for what can be purchased at St. Thomé.

Mr. Massey, supracargo of the *Prince Frederick* having a parcel of Surat cotton on board, which he is willing to sell here, and as that is a profitable article in China, it was agreed to purchase from two to three hundred bales, if he will spare so much at twenty-four (24) pagodas the Madrass candy.

The President also acquaints the Board he had discoursed with the owners of some sandalwood, and had offered twenty-four (24) pagodas a candy, which they at first agreed to, but they refusing to have it sorted in the same manner as that bought last year, the bargain was not concluded. Agreed to wait till the arrival of the ships from the Malabar coast, as what is provided there for the *Royal Guardian* may possibly be sent hither upon the advice of her arrival here.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
W. MONSON—GEORGE TORRIANO.

CONSULTATION, MONDAY, THE 12TH MAY, 1740.

(MR. TORRIANO Sick.)

The President acquaints the Board that last night he received advice which was confirmed this morning, that the Nabob Doost Alley Cawn and his youngest son Hussain Alley Cawn and several other persons of note had been killed in an engagement with the Morattas, at the pass of the hills which divide this province from Corrapah, the particulars of which engagement according to what we yet hear are as follows:—The Nabob was lying at the pass with no more than two thousand horse, and about ten thousand peons of Bungar Veasum Naigues, the Morattas being then on the other side the pass. Some overtures were made by the last for an accommodation, but not receiving any answer from the Nabob that was satisfactory, the Morattas found means to bring about ten thousand horse through a wood (the poligar of which it is supposed shewed them the way) and the 9th in the morning they appeared in the Nabob's rear, at the same time the rest of the Moratta army possessed themselves of the hills, and came down in his front; the Nabob's forces were soon surrounded and the enemy charging them with fire arms, the Nabob, his son Hussain Alley and several others about him were soon killed; after which the Morattas having proclaimed that, if the rest would disperse, they should not be pursued, the Nabob's forces soon fled. Subder Alley Cawn, the Nabob's eldest son, who was upon his march to his father but with no more than three thousand horse hearing of this defeat turned back and 'tis thought designs to shut himself up in Velour.

As there is no room to doubt now that the Morattas may and will range over the whole province, the President acquaints the Board he had this morning ordered all the men we have in garrison to be upon duty; but considering how many guards and points we have, they will at best be very weakly mann'd, and therefore proposed to the consideration of the Board, what further to do upon this emergency upon which it was agreed as follows:—

That considering the few men we have, particularly Europeans, it is impossible to spare any force sufficient to mann the out choultrys which were formerly

erected to defend the suburbs, besides that those choultrys are so much gone to decay that they are not tenable, and were they in better repair it would take up so many men to man them that it would lessen considerably the small number we have for the guard of the White & Black Towns; that they lye at so great a distance as not easily to be succoured, and if they should be hard-pressed, the men would be in very great danger of being cut off before they could retreat to the town. Agreed therefore that it is not safe to trust any men at the out-choultries, but as it would make too much noise and alarm the inhabitants to bring the guns in from thence, it was only ordered that they be nailed up.

Ordered also that as many Europeans and topasses be entertained in the military and gunroom as can be procured. This order is made general because we have too much reason to beleive the most that can be got will be far short of what is necessary.

There being upwards of two hundred guns mounted on the walls and bastions, and the number of men in the gunner's crew not being above one man to two guns, and as in case of action our military will be of most service with their fire-arms, it is agreed to entertain two hundred lascars, if so many can be procured, to assist in working the great guns.

Ordered also that one hundred peons be taken in upon the Company's pay under the command of the Chief-peon.

And the poligar of this place being obliged upon any emergency to raise two hundred additional taliars on the Company's paying their batta during the time they are in service, the President was desired to order the poligar to get them ready as soon as possible.

The sale of the Company's lead was appointed to be on this day, but our merchants and inhabitants being in the greatest consternation upon the present news from the country it was agreed to deferr the sale till some other time.

The Peddanaigue's cowle granted in 1706 now lying on the table being drawn on paper almost worn out by time and hardly legible, ordered that the Secretary give him a new copy drawn on parchment.

The President was desired to employ such a number of hircarrahs as he thinks proper to send into the country to observe the motions of the Morattas.

RICHARD BENTON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—WILLIAM MONSON.

#### CONSULTATION, THURSDAY, THE 15TH MAY, 1740.

Last Consultation read and signed.

The President acquaints the Board he had received advice from the country that fifteen or twenty thousand Moratta horse were arrived at Lollapettah and Arcot and were plundering both those places.

There being little or no Europe powder in the garrison and but five hundred fire-arms that can be depended on in case of action, and the Board being informed there is a quantity of the first and eight chests of the latter on board the *Royal Guardian* consigned to Bombay, it's agreed to sign an order to Capt. Hoadly to send ashoar ten barrels of gunpowder and the eight chests of fire arms.

As it is very likely it will soon be necessary to put our European inhabitants under arms, it's agreed that commissions be drawn out appointing William Monson Esqr. Captain, Mr. John Stratton Lieutenant, and Mr. John Hallyburton Ensign.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—WILLIAM MONSON—GEORGE TORRIANO.

## CONSULTATION, MONDAY, THE 19TH MAY, 1740.

There being several places on the walls where it will be proper to plant guns for the defence of the town, the Storekeeper is ordered to deliver to the gunner so many as are wanted and to make carriages for the same, and till those can be finished the gunner is ordered to make use of some of the carriages on the saluting battery.

The Paymaster is likewise ordered to buy in a quantity of sheep and to salt up some beef and pork, to make a quantity of biscuit, to send to Pulliacat for salt-fish, to lay in also some firewood, and to look out for all the Pegue jars in town, or other vessels proper for keeping water.

Commissions of this date signed appointing William Monson Esqr. Captain, Mr. John Stratton Lieutenant, and Mr. John Hallyburton Ensign, of the inhabitants of this town.

There being a great want of fanams for the currency of the place, agreed that three thousand (3,000) pagodas more be advanced the Import-Warehousekeeper to purchase silver to coin into fanams; in the meantime agreed to issue out those which were coined for Fort St. David, the roads being too dangerous to send them overland.

The Chevaux de Frise being out of repair, the Paymaster is ordered to get them mended and there being several other utensils of war which we have not in store, such as spades, shovels, pickaxes &c., he is ordered to provide so many of them likewise as may be thought necessary.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—WILLIAM MONSON—GEORGE TORRIANO.

## CONSULTATION, THURSDAY, THE 22ND MAY, 1740.

The President acquaints the Board that all the accounts he has been able to get of the Morattas and their motions since last Consultation have been very imperfect, which he imputes to the danger there is in passing the roads, except that it is agreed part of the Moratta forces had likewise entered Conjevaram and plundered that great town and he has also received frequent advices of the plundering and burning of villages between this and Arcot. One of the hircarrahs came in last night and brought advice that the Morattas had sent about twenty spies towards the sea-coasts though he could not tell upon what design; but a letter from a considerable man in the country to his son that is in town, mentions the same number of spies being sent, and adds that it was to enquire what fresh water there was in the rivers, or tanks, and particularly how much there might be in Chambrepauck tank and this morning came into town several of the inhabitants of Trevelour, which is about 12 hours journey from this place, who had fled from thence and report that a party of horse was come there, and were plundering that place.

There being eighteen military men on board the *Prince William* that are returning from Bombay to Bengal, agreed to send for them ashore upon promise that they shall go on to the Bay by the latter ships and that Captain Langworth be ordered to send them ashore.

Agreed also that Captain Langworth be ordered to send ashore twenty men of his ship's company to assist in the defence of the place, and the Paymaster is ordered to furnish provisions for them and the Bengal military and to lay in some arrack to give the men a dram morning and evening whilst they are upon duty as has always been customary upon these occasions.

Captain Langworth having some pistol powder on board which he offers to sell, the Storekeeper is ordered to purchase it.

There being a parcel of straw houses and huts lying to the northward of the Black Town within fourteen foot of the walls, which in case of an attack on that

side would be very inconvenient and make it dangerous, ordered that notice be given to the proprietors to pull them down and remove the materials elsewhere, but it was at the same time agreed that the Paymaster with the chief bricklayer and chief carpenter do first take a survey of the same and report the value to the Board, that we may agree upon allowing the owners some reasonable satisfaction.

\* \* \* \* \*

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

CONSULTATION, TUESDAY, THE 27<sup>TH</sup> MAY, 1740.

\* \* \* \* \*

General letter No. 50 from the Deputy Governour and Council of Fort St. David of the 21st instant read, acknowledging the receipt of the money last sent them; advising that they are informed the Morattas intend to settle at Gingee in which case they desire our directions about sending a present to their chief men, that Mr. Holmes supracargoo of the *Pulteney* had spared them some gun powder which they desire us to make good to him, and that they had recovered the ten thousand pagodas belonging to their merchants from Wolendore.

\* \* \* \* \*

The Paymaster produces to the Board a list of the houses lying under the north wall of the Black Town and the owners to whom they belong, with an estimate of the charge it will cost each inhabitant of those houses to remove to other places, amounting to pagodas 150-15 according to the survey made by the chief bricklayers and carpenters, and it being absolutely necessary to have that space open, the Paymaster is ordered to pay to the several persons, owners of the said houses, the sums agreeable to the said list.

There not having been any foot bank built upon the curtains under the parapet walls for want of which the parapets are too high for the men to fire over, the Paymaster is ordered to set about that work, as also to make little wells of brick and chinam on the curtains and bastions to hold water to cool the guns as we cannot get a sufficient quantity of casks to make tubs.

Ordered that fifteen hundred (1,500) pagodas be advanced the Paymaster towards defraying the extraordinary expenses.

The President then acquainted the Board that he had received some advices from the country that a treaty was on foot between the Moors and Morattas, but he could not say yet what hopes there was of an accommodation, the Morattas insisting upon very high terms; in the meantime they still continue to plunder everywhere near them, and he is sorry to add that several parties of horse, the broken remains of the late Nabob's army, were to the full as troublesome to the villages as the Moratta army to the greater towns, that they are roving about all over the country and no village escapes them where they think anything is to be got. The President adds that upon this advice he ordered out the peons and poligar's men to keep guard at the mettahs and out-parts of the pettahs, and hoped they would be able to prevent any mischief from these little robbers, if they were not joined by any body of the Morattas.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—

CONSULTATION, FRIDAY, THE 30TH MAY, 1740.

\* \* \* \* \*

There being no wall from Charles's Point to the cloth-godowns next the river, for which reason that part of the White Town lies entirely open and defenceless and may be of very ill consequence if the place should be attacked, it is agreed to be absolutely necessary to have that part of the town inclosed with a wall also, and the Paymaster is ordered to lay in materials as soon as possible, and while those are getting ready he is ordered to prepare a plan of that part of the town that the Board may the better consider in what manner to have it built.

The ditch which was formerly dug from Queen's Point round the Black Town, to the sea-side being by length of time and from neglect in not keeping it clean, now almost entirely filled up, the Paymaster is ordered to have the same new dug, as the Board are of opinion it will be very usefull to keep off an enemy, more especially as the walls of the Black Town are but weak and we have but few men to defend them.

The Board then took into consideration the number of men in the gunner's list as settled in Consultation of the 19th August 1732, as also a list of the guns mounted upon the several points and curtains and agreed that so small a number is far short of what is necessary in case of any attack, and in such case we ought to have some persons of more knowledge and judgement than common men to direct the firing the guns and therefore that more mates and more Europeans ought to be entered into pay and after sometime spent in considering thereof, the Board agreed upon a list as entered after this Consultation for the present establishment, and the Paymaster and Gunner are ordered to look out for proper persons to be entertained agreeable thereto.

There being several persons in the gunner's list who have been long in the service but are now disabled and unfit for duty ordered that they be struck out of the gunner's list and entered upon half-pay, and the list of their names entered hereafter.

Ordered that one thousand (1,000) Pagodas be advanced the Paymaster to defray the charges of the garrison.

## CONSULTATION, TUESDAY, THE 3RD JUNE, 1740.

\* \* \* \* \*

Matoor Chitteram and Copertee Pera Lingam attending, acquaint the Board that great part of the chay goods are ready provided at Motopolee, and as they apprehend it may be dangerous keeping of them there, that part of the country also being involved in troubles by the quarrels among the polygars; they desire the directions of the Board, which being taken into consideration and that the town merchants do frequently at this season of the year send for their goods from those parts by mussoolas, it is agreed to send two mussoolas for these goods from Motopolee.

\* \* \* \* \*

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

## CONSULTATION, THURSDAY, THE 12TH JUNE, 1740.

\* \* \* \* \*

Telesinga Chittee and Nellamoota Comrapa Chittee attending produced to the Board [a] letter from their gomastas at Salem advising that they have two hundred and fifty oxloads of cloth lying ready there to send to Cuddalore, but are afraid to venture it without a guard, lest the Poligars should plunder it upon the road. After some discourse with the merchants, they gave it as their opinion that thirty or forty peons would be sufficient to protect them, upon which it was agreed to send twenty peons from thence and that they be joined by twenty more at Fort St. David and to proceed from thence to the borders of Salem, where the cloth will be ready; however the merchants do not propose to venture it all at once but at three different times.

Agreed that directions be given to Fort St. David accordingly and that twenty peons more be added to the other twenty and that by them we send three thousand (3,000) Pagodas worth of fanams.

\* \* \* \* \*

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

## CONSULTATION, SUNDAY, THE 15TH JUNE, 1740.

\* \* \* \* \*

Our Hon'ble masters having in the 16th para. of their letter to us just now read ordered that we should not send one of their ships to China this season, it was taken into consideration what to do with the cargo provided for that voyage upon which it was agreed it will not be for the Company's interest to keep it till next season as some of the articles are perishable, particularly the putchuck which was a year old when it arrived here and the cotton will not be the better for keeping; upon the whole, it was agreed that if the inhabitants would come into a subscription for a voyage to China on a country ship we would let them have all the tinn and what other goods we have provided for the China market at the prices they cost.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON.

## CONSULTATION, MONDAY, THE 23RD JUNE, 1740.

\* \* \* \* \*

The inhabitants having subscribed forty-two thousand (42,000) pagodas towards carrying on a voyage to China on a country ship named the *Augusta*, the Export-warehousekeeper is ordered to deliver them the tinn, cotton, putchuck and oliban [em] agreeable to our resolution in Consultation of the 15th instant.

\* \* \* \* \*

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON.

CONSULTATION, FRIDAY, THE 27TH JUNE, 1740.

(Mr. Burton sick.)

The Board having been misinformed of Mr. Jones intending to administer to the effects of Mr. Gibson deceased at Vizagapatam, it is agreed to direct the Chief and Council there to take charge and dispose of them for the benefit of the creditors, rendering an account thereof to such person or persons as may hereafter administer, and, when they have sufficient in their hands of the said Gibson's effects to pay off his debt to Narrain Pottanah, one of their country renters, who they tell us in their letter of the 3rd March was like to give them trouble on that account, and as a means that may prevent the ill consequences of an affair of this sort in future, it's agreed to send them the following order formed from our book of Standing Orders:—

That no Company's servant or other European living at Vizagapatam shall directly or indirectly borrow any money or otherwise become indebted to any of the Moor's governours or to any of the Rajahs or country renters, and whoever shall be guilty of a breach hereof shall be suspended from the Company's service if covenanted servants and sent for up hither; those who are not in the Company's service shall be sent for hither and from hence to England.

The President acquaints the Board that being informed yesterday morning that Gopall Chitty one of our merchants who is indebted about five thousand (5,000) pagodas on the running contract was so ill that his life was despaired of, he thought proper to order one of our warehouse conicoplys to go to his house and lock up what valuable effects he might find there; accordingly the said conicoply went thither and in the presence of Gopall Chitty's conicoply and some others of the family he had locked up one room in which were about fourteen thousand rupees lying in bags upon the floor and a chest which (as Gopall Chitty's conicoply said) contained about one thousand pagodas, all which he locked up in the said room under two keys one of which he brought away with him the other he delivered to Gopall Chitty's conicoply; the President adds that in the afternoon Gopall Chitty died, upon which he had ordered a letter to be wrote to Custoor Chitty, father of the deceased, desiring him to come up hither to settle his accounts with the Company.

Ordered that the Secretary do go to Gopall Chitty's house and put the Company's seal on the room where the money is locked up and that the same do remain so sealed up till Custoor Chitty arrives here and settles his son's accounts with the Company.

RICHARD BENYON—RANDALL FOWKE—NICHOLAS MORSE—WILLIAM MONSON.

CONSULTATION, WEDNESDAY, THE 2ND JULY, 1740.

As Madrass pagodas will be wanted to send to Vizagapatam for the use of that and the other northern settlements before the southerly monsoon is over, Linga Chitty was sent for and discoursed with concerning the best method for procuring the same. He adds that no gold is now procurable in the place, and therefore if we are under a necessity for the Madrass pagodas there is no way to supply ourselves but by coining the current money, and if we would agree thereto he would undertake to deliver them at eleven per cent. batta; being asked how he made so great a difference he said he computed,

	Per cent.
The difference of touch ... ..	7½
That there would be a loss in refining ... ..	1½
The charge of refining ... ..	½
The charge of coining ... ..	½
	<hr/> 10½ per cent. <hr/>

The Board took till next Consultation to consider of Linga Chittee's proposa and ordered that a copy of his account of the charge be delivered the Assay Master to examine the same and report his opinion thereof the next Consultation.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON.

CONSULTATION, WEDNESDAY, THE 9TH JULY, 1740.

\* \* \* \* \*

Mr. Foxal attending acquaints the Board that he had examined the account of the charges of coining the current into Madrass pagodas delivered in by Linga Chitty and observed that he had not allowed for the difference in the weight between one thousand Madrass and one thousand current pagodas, which is one and a quarter ( $1\frac{1}{4}$ ) per cent; for the rest Linga Chittee's account was pretty exact, and if it be considered besides that notwithstanding all the care the shroff can take in shroffing the money, several of the current pagodas he seals are worse than eighty and a quarter ( $80\frac{1}{4}$ ) touch, he beleived it Linga Chittee would agree to deliver the Madrass pagodas at eleven per cent. batta, the chance was equal whether he got or lost by them: upon which Linga Chittee was called in and the Board agreed to pay him now twenty-two thousand two hundred (22,200,) current pagodas to receive twenty thousand (20,000) Madrass in thirty-five days.

## CONSULTATION, MONDAY, THE 4TH AUGUST, 1740.

\* \* \* \* \*

A box of wiggs directed to Mr. William Gibson, late surgeon at Vizagapatam deceased, having been some time since delivered to the Secretary who was ordered to keep them till some body should administer to that estate, he is now ordered to sell them at outcry and pay the nett produce thereof into cash.

The President acquaints the Board that Custoorra Chitty had been with him to desire he might have the keys of the room wherein the money was locked up in his son's house, and the Company's seals put thereon by order of Consultation of the 27th June after which he would pay in three thousand pagodas, in part of the balance due from his son, and for the rest he expected in few days as much cloth from Fort St. David as would more than clear it; ordered that the Secretary deliver the keys to Custoorra Chitty when he calls for them.

\* \* \* \* \*

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

## CONSULTATION, SATURDAY, THE 16TH AUGUST, 1740

\* \* \* \* \*

General letters read, Vizt.

No. 78, a letter from Mr. Dumas &ct. Council of Pondicherry dated 24th August N.S. relating to four men deserted from their garrison to Fort St. David, and suspected of having murdered a man and whom they therefore demand in the name of his most Christian Majesty to be delivered up to them, proposing also the entering into a treaty with us about the delivering up such criminals, as they have done with the Dutch and Danes on this coast and with our gentlemen at Telli-cherry.

No. 79, from the Deputy Governour and Council of Fort St. David of the 13th instant giving us their sentiments of and an account of what has passed between the gentlemen of Pondicherry and them in the affair of the four deserters, and inclosing a letter they received from Pondicherry dated the 22nd August N.S. and copy of their answer thereto dated the 12th O. S. on that subject.

The foregoing letters and the subject thereof being taken under consideration, the Board are of opinion that a murther attended with such circumstances as that of the old Chouliair of which the four deserters stand suspected with so much reason ought not to go unpunished and that the giving up those men is no contravention to the protection of the flag, upon promise of the gentlemen of Pondicherry that if they are not found guilty of the murder they shall be pardoned the desertion.

As to what is proposed both from Pondicherry and Fort St. David about entering into some agreement for preventing mischiefs of this sort in future, we think it may be better to hold ourselves at liberty in that respect, nor do we suppose the gentlemen of Pondicherry will concern themselves further about it since we have complied with the intention of such an agreement in delivering up these men.

Agreed to transmit the Deputy Governour and Council of Fort St. David our resolutions upon this affair in a copy of our letter to the gentlemen of Pondicherry.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

## PETITION DATED AUGUST 20 (?) 1740.

TO THE HON'BLE RICHARD BENYON ESQR. PRESIDENT AND GOVERNOUR, &ct. COUNCIL OF  
FORT ST. GEORGE.

The humble petition of Thomas Holmes and Robert Heath, mariners,  
Sheweth,

That your petitioners served as officers on board the ship *Nancy* lying at Pondicherry, of which Mr. Monger was supercargoe. That when your petitioners

expected a voyage to this port of Madrass, the said Mr. Monger sent to the Captain and told him that he had sold the said ship, and ordered him on board to deliver her at three in the afternoon to Mr. Pattaleen; otherwise that he himself would deliver her upon which the Captain and Chief mate Thomas Holmes went on board, and at three o'clock came Mr. Monger to see the ship delivered as above. The Captain then asked him in what manner his wages were to be paid, with what was due to his officers and people and what was to be done with the freight bales which he had signed a bill of lading for. To this Mr. Monger made no reply. Whereupon the Captain addressed himself to the purchaser of the ship and told him, he was ready to deliver her to him if he would give his word for the payment of the wages due on the ship. But the said purchaser answered, it was no concern of his, if the ship was delivered to him, 'twas well, if not, he would go on shore. The Captain then told him that he would wait on Mr. Dumas in the morning, so they went away. And as soon as they put off from the ship your petitioners struck the yards and topmasts, and there being a shellingay aboard your petitioner Thomas Holmes wrote a note to Captain Jobbins desiring him to send three or four loaves of bread, which note the said Messrs. Monger, Barry and Pattleen carried to the Governour, and interpreted it that Captain Jobbins was to send not three or four loaves of bread, but three or four boats of people on board, and that your petitioners intended to run away with the ship. There is something so very extraordinary in this affair, that it could scarce gain credit, had not your petitioner, Thomas Holmes, a letter under Captain Jobbin's hand, which he will produce to the Honourable Board, to give ample satisfaction herein; Mr. Dumas hereupon ordered a guard from the garrison to be sent to bring your petitioners on shore; and in the dusk of the evening came two shellingays full of armed men, to the great surprise of your petitioners, they being wholly ignorant of the design and business they could have on board. Your petitioners hailed them, to know who they were and what they wanted; the shellingays answered in English, friends, and went away; but as your petitioners were informed afterwards Mr. Monger was in one of them, and put on board the Europe ship then lying there, and gave four rupees each to those that came with him to take your petitioners.

The Captain being something disordered, lay down, and desired your petitioners not to suffer any boats to come on board without hailing and knowing who they were. But between 9 and 10 at night came three or four boats which were hailed by your petitioner Thomas Holmes; but instead of answer, fired immediately their small arms on your petitioners, and boarded the ship, and wounded the said Thomas Holmes in several places in a dangerous manner, and robbed him of 25 pagodas in money, his watch and buckles, and carried him on board the Europe ship to stop the blood and dress the wounds. But the Captain and second mate they carried ashore and put in prison; about fourteen days after they sent the Chief Mate his watch; but would neither bring the man, who committed the robbery to justice nor oblige him to return the money; though your petitioner Thomas Holmes, the said Chief Mate, can swear positively against him.

Your petitioners are satisfied that Mr. Dumas is a gentleman of too much honour to suffer such enormities, but they beleive that he has not been acquainted with the circumstances of the affair, and especially for this reason, that while your petitioners continued prisoners there, they were debarred the use of pen and paper, whereby they might have represented their case to him, and set the ill usage they had received in a true light.

But the behaviour of those who boarded your petitioners, was too notorious to escape his knowledge, for which he imprisoned the officer who commanded the soldiers. Which affair introduced another scene of villainy, for the said prisoner to clear himself invented the most scandalous falsehood, and told the Governour that your petitioners fired first upon them, and that they only stood in their own defence. Your petitioners are ready to take their oaths, that they had neither flints nor cartridges, nor ball on board.

Another hardship your petitioners beg leave to complain to this Honourable Board of, that when your petitioners were taken prisoners, the soldiers broke open and rifled your petitioners' chests and escrutores, and they continued open till Mr. Monger next morning went on board, and nailed and sealed them, so that your petitioner have great reason to fear that all their effects on board are lost.

This is a true state of this affair, for which your petitioners are confined, and have suffered such losses, besides the blemish cast upon their characters, which to a man of business is more to be dreaded than every thing else. But in the midst of all these misfortunes, they account it no small happiness that they have the liberty to address themselves to this Honourable Board, from whose justice they may expect a redress of their greivances. They refer themselves wholly to your goodness and compassion for the injured, begging leave only to acquaint you that with the necessary expences they have been at since their confinement, their circumstances are much strait'ned; for which they hope this Honourable Board will make such provision as shall be thought proper: and as in duty bound they shall ever remain full of acknowledgments.

THOMAS HOLMES—ROBERT HEATH.

## CONSULTATION, MONDAY, THE 8TH SEPTEMBER, 1740.

The President acquainted the Board that some days ago Coja Petrus had been with him to know the Company's price for seven hundred candy of lead, Budda Sahib having wrote him for so much; to which the President answered that considering the quantity and what the last sold for at outcry, he beleived the Board would take 12½, but if he could get 13, it would be so much the better. Two or three days past Mr. Monson asked the President if Coja Petrus had been with him about some lead and whether he had asked him 13 per candy for it, and the President answering he had, but had not seen Petrus since, Mr. Monson said the person who had wrote Coja Petrus had since wrote to Linga Chitty to enquire the Company's price for the like quantity and in such terms as if he conceived Petrus intended to make a profit upon it. Upon which the President and Mr. Monson agreed that since Petrus had been directed to ask 13, we ought for the sake of Petrus's credit to insist upon that price, and now Mr. Monson acquainting the Board he had accordingly insisted upon 13 per candy with Linga Chittee, who had consented to give it. The Board agreed to sell the same.

And then the President acquainted the Board that having good reason to beleive the renters of the betle and tobacco farm would fling it up as soon as their time expired, having lost considerably by it the last five years, he had been for these three months past endeavouring to procure other persons to take it, but found it attended with great difficulties. However at last he had prevailed with Trivety Sashachilum to take a part, but he being obliged to go into the country before the President could get others to take the remainder, which having since accomplished and prevailed upon Moopar Chittee Eyanah, Velour Canma Chittee and Subramony Chittee to be concerned therein, but who by reason of Sashachilum's absence could not entirely settle and agree upon their parts, the three last persons had proposed if the Board will give them authority to act with Sashachilum's gomastahs till he returned in collecting the duty, and pay in the monthly rent at the rate of ten thousand (10,000) pagodas per annum, but desired that the drawing out of the cowle might be deferr'd till Sashachilum came to town.

The President also acquainted the Board that he had likewise talked with Sashachilum before he went and with the others, when he was negotiating with them about the betle cowle, and found them inclined to take the farms of the Town Brokerage and Measuring Duty when Sashachilum returns from the country which will be in few days; the President added that the last cowles for the betle and tobacco farm and the Town Brokerage expiring the 5th instant, he had ordered the old farmers to act in the business from that time, till the Board should appoint other persons with whom they were to account for the surplus time. The President also added that he wished he could have brought these persons sooner to an agreement, but the betle and tobacco farm having been such a losing affair to the last farmers owing to the scarcity and dearness

of tobacco and other accidents proceeding from the late famines, he had found the letting that farm at the old rate, attended with difficulties almost insuperable, and was once afraid we should be obliged to abate considerably of it for the ensuing term.

The Board, being satisfied that the late betle and tobacco farmers suffered considerably in the time they have had the cowle, and also the difficulty of keeping it up to the old rate, desired the President to use his endeavours to perfect the agreement between Sashachilum and the other persons as soon as he returns from the country, and in the mean time that they be empowered to collect the duties arising on the betle and tobacco, and the Town Brokerage from the 5th and on the Measuring Duty from the 20th instant.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

LETTER FROM SIDNEY FOTALL, ASSAY-MASTER, TO RICHARD BENYON, ESQ.  
AT FORT ST. GEORGE

Hon'ble sir and sirs,

In obedience to your commands I have perused the accountant's remarks on the pagodas and rupees coined in the Hon'ble Company's mint at Madrass.

As to the Madrass pagodas I see no material difference being but one quarter of a grain in the assay, and the Assaymaster never reports to less then a quarter of a grain though it be  $\frac{3}{16}$  more, generally allowing the turn of the scale in favour of the buyer.

The current pagodas vary very much in all the country mints especially since the last troubles; those five mentioned in Mr. Hort's remarks are the best matt that are now current; I have lately tryed some of 74 touch, others of 70 touch, and some from the southward not quite 50 touch.

The undertakers of the Madrass mint do not pretend to make the rupees of so exact a weight as the English money, nor is it possible that they can, being obliged to weigh and melt every rupee singly, having no flatting mills or other engines, as they have in Europe, so that often times some are half a grain or a grain under or over weight, but I myself take care that they want not above one half per mill at most, as Mr. Monson the Warehousekeeper can testifie, who sees them weighed himself when he receives them into the Hon'ble Company's warehouse, and were the minters to endeavour to be more exact the coinage would be very tedious, so that the Hon'ble Company's ships could not be dispatched in due time to the Bay.

As to the Tower Assaymaster reporting the Madrass rupees but 13 dwt. better than standard, it is probable he made the said silver assays in the same fire with gold assays, and all artists will allow that gold requires a greater heat than silver and that silver may be wasted in the fire by over-heat. Fine silver assays are likewise very liable to spring in cooling by which means there may be more or less loss.

I will not affirm that either of the above accidents have happened to the said assays or that Mr. Haynes has not allowed the remedy, which is always customary in the coinage of silver in the Tower and at the tryal of his Majesties Picts. But this I do assure your honour &c., that to the best of my knowledge I have never past any musters of the rupees less than  $14\frac{1}{2}$  dwt. better than English standard and they have been frequently 15 dwt. better, by reason it is not worth the undertakers while to melt them over again for  $\frac{1}{2}$  dwt. betterness. And I firmly beleive that none of the goldsmiths or cooleys dare to add any alloy or mix coarser silver after that is assayed and passed to them.

The Madrass minters allow the same number of rupees in proportion for the new Mexico dollars as they do for standard silver according to their contract with your honour &c. Council when they were assayed and proved 3 dwt. worse

than standard, and I cannot assign any reason why the Bombay minters allow more unless they wor[k] cheaper in other respects.

I am, Hon'ble sir and sirs, Your most faithfull humble servant,  
 Fort St. George, SIDNEY FOXALL.  
 11th September, 1740.

CONSULTATION, TUESDAY, THE 16TH SEPTEMBER, 1740.

\* \* \* \* \*

The Export-Warehousekeeper lays before the Board the account of the cost of the Salem ordinary, midling and fine long cloths, as delivered into the warehouse by the several sets of merchants which being dearer than the goods of last year and the Salem higher prized than from the advices as yet received from Fort St. David, we beleive that cloth from thence will be, the merchants were sent for, and, being called in, were told their cloth was considerably dearer than last year, and even than that provided this year at Fort St. David, to which they answered, that they had bought it as cheap as they could and had given in an exact and true account of the cost, and if it was somewhat dearer than the St. David cloth, that was to be accounted for by the greater distance and the extraordinary charge of oxford, peons, and cooleys, batty, &c. To this the Board replied that if the cloth which came overland quite to us did cost somewhat more than what went to Fort St. David, yet great part of it was brought from Fort St. David hither by sea, by which means much of the charge of carriage was eased, but that however even allowing that difference, yet still the cloth was dearer. The merchants then asked how much difference there was in the price and wherein it consisted, which request (not having yet received the exact account from Fort St. David) we deferr'd complying with, till the account which was wrote for the 11th instant comes up, and agreed then to meet in the sorting godown, and compare the cloths together.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
 WILLIAM MONSON—GEORGE TORRIANO.

CONSULTATION, THURSDAY, THE 18TH SEPTEMBER, 1740.

\* \* \* \* \*

Having received from Fort St. David the account of the cost of the cloth sent hither upon their running contract with the merchants, the Board met this day in the sorting godown, and compared the sorting of the Fort St. David cloth with the sorting of that brought in by our merchants here, and were of opinion that most of our number three, Salem, was equal to their number two, and our number four much better than theirs, for the same reason a great deal of our number two is equal to their number one.

That their fine long cloth is a different thread to ours, and though the threads have been dropt in some of our number three, which occasioned some faults in it, yet we think our fine long cloth in the whole is a finer cloth than theirs, and cheaper in proportion.

The Board then compared the prices of our Salem cloth, with the prices of that received from Fort St. David, and found that one with another ours comes out 2-20-51 per corge dearer than that from St. David; upon which the merchants being called in again, insisted that their accounts were true, and that they would abide by them, and desired that we would send for the Fort St. David merchants' accounts and that it might be specified therein, what they gave for the cloth in the country, and the particular charges of bringing the same from Salem to Fort St. David, but as the examining into this affair will take up a great deal of time before we can come to any exactness wherein the difference lies, the further consideration was deferred till after the dispatch of the *Colchester*.

The Board then proceeded to examine the morees and other fine goods provided in this part of the country, and observing most of them to fall short of our old musters, the merchants were examined concerning the same, and told, that we should be obliged to turn a great deal of it out; to which they replied, that they provided these goods only for their brokerage, and they would give us a fair account of the cost, but that we must not turn any of it out. In answer to which they were told, that they had musters given them, and they were to provide goods according to those musters and we would according to our agreement pay them what the same should cost, but that a great deal of what they had brought in was so far inferior to those musters, that it could not be called the same sort of cloth, and therefore if they could not get such as was agreeable to the musters, they ought to have declared so before, and returned the money; for at the rate they went on, and if we should take in all that they did from the weavers, we should soon run into a different manufacture. The merchants having little more to say for themselves than that they had brought in the best they could get, and would give in a true and faithfull account of the cost and charges, they were ordered to withdraw; after which the Warehousekeeper was ordered to sort the whole and to take in none that did not come up to number two in the gingham, betteelas, superfine morees, and fine and ordinary morees, and to number three in the salampores and long cloth fine; for so much as should come under those numbers, the Board ordered it to be laid by for further consideration after the dispatch of the *Colchester*.

Errors Excepted

PER ROBERT MYLNE.

CONSULTATION, MONDAY, THE 29TH SEPTEMBER, 1740.

Our garrison consisting at present of 540 men, officers included, and will remain about four hundred and eighty after the draughts made for Fort St. David and the West Coast, and the establishment for the two company's being no more than 160 men each, agreed that the supernumerary men be formed into a third company and the command thereof given to Lieutenant Southby for so long as it may be necessary to keep up a larger force than we are limited to in more quiet times.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON.

## CONSULTATION, TUESDAY, THE 30TH SEPTEMBER, 1740.

\* \* \* \* \*

George Torriano, Rental General, pays in three hundred (300) pagodas on account of quit rents, and requests permission to entertain two additional peons for gathering in those rents, because those he is now allowed, being obliged on account of the badness of the coin now current in the Black Town, to carry every pagoda as they receive it to the shroff, spend so much of their time in going backward and forward for that purpose, that it will be impossible to compleat the accounts in the year without more assistance, which request is for the said reason agreed to.

\* \* \* \* \*

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—WILLIAM MONSON—GEORGE TORRIANO.

## CONSULTATION, SATURDAY, THE 1ST NOVEMBER, 1740.

The Import-Warehousekeeper acquaints the Board that he had again tried the shroffs relating to the purchase of the silver, but the best offer which had been made him as yet was from Linga Chitty, who would take ten chests at fourteen and five eighths ( $14\frac{5}{8}$ ) dollar weight of standard silver for ten (10) pagodas, would pay ready money for five chests and pay for the other five in one month. The Board beleiving they shall not have a better offer agreed to accept thereof and the Import-Warehousekeeper is ordered to deliver ten chests of bullion to Linga Chitty upon those terms.

Agreed that five thousand (5,000) Pags. be paid Telesinga Chittee and Nellamoota Comrapa for callicoes brought in by them, and then they put the Board in mind of the promise made them in August 1739, that they should have two hundred bales of the broad cloth received from Europe that year and the consultation of the 21st August 1739 being called for the Board observed that promise was conditional, but however as Tomby Chitty and his partners did the 20th of last month pay in the first payment and promised to be more punctual in the next in further part of their debt, the Board were willing to comply with their request in letting them have one third of the broad cloth received last year, but the price not being then settled the Board asked them what they proposed to give for it, to which they replied that we must be very sensible how much the prices of all goods were affected by the troubles and the hazard there was of sending them up into the country, that they knew we would not consent to abate any thing of the price we sold the broad cloth of 1738 for, and therefore they did not ask it; but they hoped we would let them have it at the same rate which was as much as they could

afford to give with any hopes of a reasonable profit considering the risque they run in the country, and the interest they must pay as they understood they were to lay the money down before they took the cloth out of the war-house.

The Board having abundant reason to be convinced of the bad effects which the troubles in the country have had, and still have, upon all trade, that great part of the broad cloth which the other merchants took out of the warehouse the beginning of the year remains still in town, and that they have been obliged to sell it at a less price than formerly in order to encourage the buyers and promote the consumption, which is much decreased of late by the wars in Misore and Tritchanopoly, which countries when they were in peace took off considerable quantities, agreed to let Tellesinga Chitty and Nella Moota Comrapa have two hundred bales or one third of the broad cloth received last year at thirty (30) per cent advance as usual, but that they pay the money for it before they take it out of the warehouse agreeable to our Hon'ble masters directions the 21st March 1739/40 Par. 10 and that the other four hundred bales or two-thirds be delivered upon the same terms to Molinga Kistna and Ponnappa Chitty.

\*

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—WILLIAM MONSON—  
GEORGE TORRIANO.

CONSULTATION, MONDAY, THE 3RD NOVEMBER, 1740.

(MR. MORSE *absent*.)

Last Consultation read and signed.

The President acquaints the Board that there has for some days been a report that the Morattas were coming again into this province, which had given a fresh alarm to the inhabitants; that yesterday the families of several considerable Moor men came into town, more were come to day, and others were upon the road; that he had endeavoured to inform himself what might be the reason of the Morattas marching again towards Arcot, concerning which, reports were very different, but that which had the best authority, and which he hoped might be depended on was, that Ragojee Busseirah was coming with only three thousand horse to the feast at Trinomoly, and though the grand army was advanced to Coloure it was only to receive the last payment due from the Nabob, who had sent Kistnajee Puntaloo to settle it with them. However, as neither Morattas or Moors depend much upon the faith of each other, the Nabob was putting himself in a posture of defence at Arcot, and had given leave to those who were afraid to stay there, to go and secure themselves where they thought fit, till all matters were adjusted between him and the Morattas and these last were retired again to a greater distance. In the mean time the President has given fresh directions to the hircarras to observe what passed in the country and send him constant advices of the motions of the Moratta forces.

The President then acquainted the Board that agreeable to what was recommended to him in Consultation the 8th September, he had often since Trivitee Sashachilum's return from the country, endeavoured to settle all matters between him and the others proposed to be concerned with him in the cowles for the betle and tobacco, and those for the Measuring Duty and Town Brokerage; but many difficulties had been started on both sides, till at last they had agreed that Trivitee Sashachilum and Subramony Chittee should be named in the cowle for the betle and tobacco, and Gongadarah Eyah, Sombayah and Quotambaucum Gruapa for the Measuring Duty and Town Brokerage, Quotambaucum Gruapa and Gongadarah Eyah not being of a rank equal to Trivitee Sashachilum is the reason his gomasta Sombayah is named in his stead. The President added that Sashachilum having occasion for his interest and assistance in some affairs in the country, had given him an opportunity to engage him in these cowles which if be

had not, that for the betle and tobacco must in all probability have been let at a much less rent.

Agreed that the persons named for the several cowles be incerted therein, and that the Secretary draw them out ready for signing again next Consultation.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—WILLIAM MONSON—  
GEORGE TORRIANO.

#### DIARY, DECEMBER 2ND, 1740.

Upon advices received yesterday evening and this morning that the Morattas have plundered and burnt several towns no great distance from us, the Council being with the Governour on occasion of the sessions, agreed to deferr sending the supply of cash to Fort St. David, as intended yesterday, and ordered the Secretary to advise the Deputy Governour and Council thereof.

## CONSULTATION, THURSDAY, THE 4TH DECEMBER, 1740.

\* \* \* \* \*

The accounts of the cost of cloth provided by our several sets of merchants consisting of several sheets of paper, the entering of all which after our Consultations would occasion a great deal of writing work, to prevent which it is agreed to appoint a committee to examine the particulars and that it be an instruction to them to report to the Board in what particulars our merchants have charged more than the merchants at Fort St. David on the Salem cloth and also that they examine the merchants about the charges of bringing the cloth from Fort St. David and Salem and whether the charge of eighteen (18) fanams per corgo for servants' wages and peons' batta be warranted by any account of the particulars. Agreed that Messrs. Burton and Morse be a Committee for this purpose, and that our Hon'ble Masters may see the nature of the accounts delivered in by the merchants ordered that a copy of those delivered in by Telesinga Chitty and Nellamuta Comrapa be entered after this Consultation.

All our accounts from the country agreeing that the Morattas are again spread over the province and have plundered several towns and villages, it was thought proper to order all our military upon duty, and the Paymaster is directed to make them the usual allowance of arrack, and as we know not what further designs the Morattas may have the Paymaster is also ordered to lay in a stock of provisions for the use of the garrison.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

CONSULTATION, TUESDAY, THE 9TH DECEMBER, 1740.

\* \* \* \* \*

The Board having in Consultation the 30th May last agreed that it was absolutely necessary that that part of the White Town lying from Charles Point to the cloth godowns next the river should be inclosed with a wall and having hitherto deferr'd the consideration in what manner it should be built partly for want of materials and partly because the Morattas having come to an agreement with the Nabob to leave the country on payment of a sum of money we thought there was reason to hope they would before now have returned to their own country without giving us any molestation; but as we look upon their late conduct to be a breach of faith with the Nabob and a manifest violation of their agreements with him, and it being confidently reported on all hands that they intend to visit the sea ports, the Board agreed it to be absolutely necessary that some fence should be run up at the beforementioned part of the White Town as soon as possible, but as we have not a sufficient quantity of materials ready, and perhaps also not sufficient time to build a strong wall there, the Paymaster was ordered for the present to run up a wall of two bricks and a half thick upon the wharf which has been already built there by the inhabitants and that it be twelve feet high above the w[h]arf. The expence of this will not be above four or five hundred pagodas and our intention is only to make such a fence as may prevent the enemy from marching directly into the town and their musketry from firing into the houses either of which they might at present do if they have never so little resolution since the river is fordable and the bank on the opposite side as high as the wharf on this. But as this is only a temporary remedy and very far from a sufficient security it is agreed to represent the same to our Hon'ble masters and desire permission to secure all that side of the town effectually by building a curtain with proper batteries and points all along it.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

CONSULTATION, THURSDAY, THE 18TH DECEMBER, 1740.

\* \* \* \* \*

The President acquaints the Board that Imaum Saib on his going to the northward had sent his children hither for security in the present unsettled state of the country and he being now Phousdar at Metchlepatam in very great favour

both with Nazar Jung and his father Chicklis Cawn, and standing fair for some considerable preferment in this province whenever they shall resolve to settle the government, the President therefore proposed to the consideration of the Board whether it may not be of service to the Company's affairs to take the opportunity of the approaching feast to make a present to the children of about 150 pagodas value; which being debated, it was agreed that preserving the friendship of Imaum Saib was of great consequence to the Company, that such an occasion is not likely to happen again, and the laying hold of it must be agreeable to him, and therefore the President's proposal was agreed to. The list is entered after this Consultation and the amount ordered to be paid out of cash.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

CONSULTATION, SATURDAY, THE 20TH DECEMBER, 1740.

A very high sea upon the full moon in October last having overset the palisadoes and piles between the block house by New Point and the sea the Paymaster is ordered to have them set up again, and the Lieutenants of the garrison representing that it would be necessary to have a small palisado fence made within side the gates of the Black Town to secure the guards there in case there should be any design to surprize them and as we ought to guard against all treachery within as well as an enemy without, the Paymaster is ordered to set about them, it being computed also that the expence will be but a trifle.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

CONSULTATION, MONDAY, THE 22ND DECEMBER, 1740.

Messrs. Burton and Morse deliver in their report of the accounts delivered in by the merchants of the cost of the cloth in the country, as entered hereafter; upon which the Board further remarked that except 1½ fans. per corge, which some of it costs at Salem more than that brought by the St. David merchants,

and the charge of 30 fns. 50 ca. per corge brokerage paid by our merchants, the other charges are incident to the great distance we are from Salem more than Fort St. David; but however all the charges together makes our cloth here come out six per cent dearer than the St. David cloth; whether it be so much better in goodness we must wait the opinion of our Hon'ble masters from the sale in England, but the Board are of opinion that some reduction may and ought to be made in the brokerage paid the merchant's broker at Salem, and that there may be a further saving in the article of servants' wages and the peons' batta for carrying letters backwards and forwards—we say this will require to be considered before we enter into any further engagements with our merchants for next year, but at present the country is so full of troubles by the Morattas having entered a second time into this province and their intended march to the southward, that none of the merchants think it safe to send any more money to the country for the provision of callicoos. When the country is settled and we know what quantities the Fort St. David merchants will agree for, we may then consider whether it will be necessary that the Madrass merchants should continue to provide cloth at Salem, or whether it may be more for the Company's interest to confine our merchants to what investment they can make in this part of the country.

The Paymaster delivers in as entered hereafter a calculate of the cost of the wall to be built behind the houses on the west side of Charles Street along the river amounting to four hundred fifty seven (457) pagodas.

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

TO THE HON'BLE RICHARD BENYON ESQR.

PRESIDENT AND GOVERNOUR & CT. COUNCIL OF FORT ST. GEORGE.

Hon'ble sir and sirs,

Agreeable to your order in Consultation of the 4th this instant December, we have examined the Hon'ble Company's merchants concerning the Salem cloth which they procure being dearer in the prime cost and charges upon it, than that sent from Fort St. David, and they give us the following account Vizt.

Tellesinga Chittee says he has provided as broker for the Hon'ble Company,

			Corge.	Pieces.	Pags.	fns.	
Already brought to account	...	..	359 :	18	at 40	18	per Corge.
Do.			79 :	4	} at 40	0	Do.
Not yet brought to account	...	...	376 :	0			
Do.			156 :	6	at 39	18	Do.

We observe that upon this cloth besides his own brokerage of 1 pagoda per corge according to contract, he charges brokerage given to his agents at Salem fans. 30-50 per corge, which is not charged on the Fort St. David cloth.

To which he answers that he bargained with his agents there to give 1 Salem fanam a peice or Madrass fanams 30-50 per corge, to encourage them to take care and sort it well, that none may be returned on their hands and he further saith that the cloth which his agents do turn out is taken in at Fort St. David, and at Pondicherry at a lower price. This he alledges as a reason why his cloth must necessarily come out dearer than theirs, and that he could not answer for the goodness of his cloth from thence without being at that extraordinary charge of brokerage and we think upon examination that his cloth doth come out according to the several sortments, better than that from Fort St. David.

Your honour & ct. will observe by the paper herewith delivered you that 144 corges 16 pieces of his long cloth already brought to account come directly over land hither from Salem, which has made the encrease of the charges upon it by oxennire and expences on the road Pags. 1-8-75 a corge more than upon that which came by sea from Fort St. David vizt:—294 corge—16 pieces.

We observe in the account the merchants have given in they have charged for freight boat and cooley hire on that brought by sea from St. David after the rate of fanums 19-17 per corgo which charge appearing to us very large we called upon them to give us the particulars and the account they have given us is as follows :—

Godown rent at Fort St. David fans. 2 per corgo.	
1 Merchant named Mootapah 5 Pags. per month.	
3 Peons ... .. 2	
2 Cooleys ... .. 2	

Pags. 9 per month.

which 9 pagodas a month he computes at the rate of 4 fans. 40 cash.

Banksall, cooly hire to the sea side, boat hire and peons to come up with the cloth at ... .. fans. 1 20	
Charges at Mudrass on the arrival of the cloth in boat and cooly hire and peons at ... .. 1 20	
These charges with the freight at ... .. 9 0	

Amounts to fans. 18 per corgo.

They likewise charge 18 fans. per corgo for the expence of servants and carrying letters backwards and forwards, and this upon the cloth brought in from this country as well as from Salem, and the account they give of the particulars is as follows.

Wages and batty to peons carrying letters backwards and forwards in continual pay for a year ... .. Pags 321 16 0	
Servants' wages, conieopies, cooleys, &c. ... .. 271 15 0	
Cooleys moving cloth from one godown to another ... .. 42 13 0	
Allowance to the avildars of the several méttas in the Pullenella country through which the cloth comes ... .. 36 11 0	
Pags. 671 19 0	

In some particulars our merchants charge less upon the Salem cloth than the St. David's merchants ; but our instructions being only to examine the exceedings, we have confined ourselves to those, and we find the other Madrass merchants have charged the same in all particulars as Tollesinga Chittee and Nella Moota Comrapah, and give the same reasons for it, which we offer again to your consideration and are, Hon'ble sir and sirs, your most obedient humble servants,

AUGUSTUS BURTON—NICHOLAS MORSE.

Fort St. George,  
22nd December, 1740.

# SELECTIONS FROM THE MADRAS RECORDS.

## LETTERS FROM FORT ST. GEORGE, 1740.

(VOLUME No. 24.)

### No. 14.

TO THE WORSHIPFULL JAMES HUBBARD ESQR.,  
DEPUTY GOVERNOUR &C. COUNCIL OF FORT ST. DAVID.

Worshipfull sir and sirs,

We have receiv'd your severals of the 21st, 26th and 29th January and the *Mary brigantine* is arrived with the 225 bales of calicoes.

We observe by your last that Hussanally Cawn, the Nabob's youngest son, is soon expected at Trivady, and your reasons why it may be necessary to make him a present. It's but too well known in the province the power which the Nabob's sons assume to themselves independent of their father, and which has fixed a necessity of paying greater court to them than to the Nabob himself. If we mistake not, the country about you is more particularly under the government of Hussanally Cawn and it may be imprudent to let him pass by you a second time without sending some persons to wait on him with a suitable present and therefore we leave it to you to act in that respect as you see necessary, and so we do in case the Nabob should also come your way; but as to him we are told he designs back to Arcot, and that he has actually left Allumparrah. We shall to-day send you by cooleys some embossed cloth and velvets, which is all that we have in our warehouse fit for presents.

We are, worshipfull sir and sirs, Your affectionate friends and servants,

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON---NICHOLAS  
MORSE—WILLIAM MONSON—GEORGE TORRIANO.

Fort St. George,  
5th February, 1739/40.

### No. 19.

TO CHARLES SIMPSON ESQR. CHIEF &C. AT VIZAGAPATAM.

Gentlemen,

\* \* \* \* \*

Our Honourable masters by the last ships have been pleas'd to order that the cash at all their settlements should be lock'd up under three keys to be kept by the Chief and the two next in Council, and the ballance to be produced monthly upon reading the cash account. Mr. Simpson having been alone the last year, it was needless to advise you thereof before, but now that we send Mr. Saunders, we direct that it be complied with except five thousand rupees and two thousand pagodas, which may be kept by the Chief alone for all ordinary occasions, but the whole ballance must be produced monthly in Consultation.

In our letter of the 13th February last year we recommended to you to allow all your inhabitants without distinction a full liberty of trade and we must now also recommend to you a regular and impartial administration of justice as being not less essential to the welfare of the place; and that there may be no complaints of any hardships either from delay or other reasons, we direct that when any person is confined in the choultry, at his own house, or elsewhere, or put under the charge of peons, the cause thereof shall be reported next Consultation, which Consultation shall be held within three days and the person so committed to custody shall be continued or discharged as shall be then agreed.

\* \* \* \* \*

Fort St. George,  
14th February, 1739/40.

RICHARD BENYON, &CA.

## No. 31.

TO MR. RICHARD PRINCE, RESIDENT AT INGERAM.

Sir,

As you are now upon your departure for Ingeram, we think proper to give you the following instructions:—

The Company's standard measure of the long cloths is seventy-two covids long and two and six inches broad, and of the salampores thirty-two long and two and a quarter broad; and the buyers at the sale expect they should hold out that; and though the Company have not forbid taking in the O chop, the measure of which is specified in the invoices from Ingeram, yet they have frequently, and still continue to complain that the Ingeram cloth does not hold out according to the measure in the invoice. You must be particularly carefull therefore to prevent all further complaint upon this account.

You carry with you musters out of the warehouse of the izzarees, fine long cloths and salampores. Of the first you seem to be in doubt whether you can procure above five hundred pieces in the year, but if you can make up a thousand, they will be acceptable. You must however be sure to keep up to the muster. What the Company complain of in those they have from hence is that they are too thin, and if that fault cannot be mended with you, we may as well provide them here. As to the fine long cloth and salampores we think [you will] not be able to procure more than we shall have [ . . . ] and therefore we say, get all you [ . . . ] been a constant complaint of the [ . . . ] that it is ill-cured and too soft [ . . . ] fine cloth is now generally appl [ . . . ] must endeavour to get the thread [ . . . ] much as is ready to send us in August let it come up brown, but that which you send us in December must be cured with you as we cannot hope to do it here in time to send home this season; and we hope you will be able to mend the defect complain'd of in the colour.

As you have instructions now to provide more sorts of cloth than formerly, you must be particular at the foot of your letters to us, how much you have of each sort embaled, at the washers and brown.

The Master of the *Calcutta* sloop has orders to put you ashoar at Ingeram, and then to proceed to the Bay. You must not detain him longer than to land the stores we send with you as per invoice and bill of lading inclosed.

Mr. Andrews in his letter writes us that he has procur'd a letter from Chicklis Cawn's Duan to Anawardee Cawn, wherein he assures him that he will take no batta on our pagodas at Golcondah, and orders him not to take any on what circulates in his province. We dont know what effect it may have; but you carry with you also a letter from the President to the Nabob on the same subject, and we hope you will be able to prevail with him that they may pass as formerly.

We are, Sir, Your affectionate friends,

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORBIANO.

Fort St. George,  
13th March, 1739/40.

## No. 33.

TO THE WORSHIPFULL JAMES HUBBARD ESQR.,  
DEPUTY GOVERNOUR &CA. COUNCIL OF FORT ST. DAVID.

Worshipfull sir and sirs,

Since what we wrote you the 15th February, we have receiv'd your severals of the 13th and 15th of that month and of the 3rd instant. With the first we receiv'd the 229 bales of calicoes by the *Mary* brigantine; and we should have sent you the cartridge paper you indented for by the return of that vessel, but we had not then any in store. We are endeavouring to purchase the quantity you write for, in town, and hope to send it you by the next conveyance.

Since our said letter of the 15th February we have had several discourses with our merchants relating to your merchants proposal that no agents from the

Madrass merchants should be employ'd at Chemanackpollam, Worriarpollam and [ . . . ] Salem; as to the two first places they do not [ . . . ] themselves [ . . . ] to be very fond of providing both the [ . . . ] necessary to getting in their old [ . . . ] not to be brought to the giving up [ . . . ] We have any opinion that any [ . . . ] French are to be depended on as they are too apt to make and evade them as it suits their conveniency; besides they say that it is not only the French and we who provide cloth in that country, but there are many agents there, also from the Dutch and Danes, as well as from the people of Porto Novo, and though all may not provide so good a sort as we do, yet that there is no doubt the weavers will find full employment. We wish we could think with you that the pagodas which pass in the country were all of them as good this year as last; but we have very good reason to say that large parcels have been lately coin'd that are much worse, and though our seal'd bags are kept as near to eighty touch as the judgement of our shroff will admit of, yet our merchants exchange them here for other money which is as current in the country, receiving a batta upon our seal'd bags from  $1\frac{1}{2}$  to  $2\frac{1}{2}$  per cent; but whatever there may be in your reasons or our merchants objections, they tell us positively that if they are restrain'd from providing cloth at Salem they cannot hope to make an investment elsewhere, for what of the Company's sorts is manufactured in this part of the country is next to nothing; and though some parcels of cloth from Salem do sometimes come worse than at other times, yet that what is manufactured at Warriarpollam and Chemanackpollam has of late been much worse in oroportion. Indeed if we were to give credit to all that they tell us there would be no want of cloth from Salem so long as there was money to purchase it. However we beleive it certain that country produces the best and largest quantities, and if there be any advantage accruing from the French being quiet there at present, which we still impute rather to their want of money than any other reason, we say our present thoughts are that we ought not to slip it and lose the opportunity of increasing the investment, especially as we wrote you before that it is a sort of cloth the Company seem to be pleas'd with.

From that we have said above we think none of our merchants [would inter] fere much with yours at Worriarpollam and Chemanackpollam, and [if] we may give credit to what they [say, there] is f [ull] room for them and yours too at Salem [ . . . ] ing [ . . . ] much with one another, and therefore we depend upon the assurances your merohants give you that they will endeavour to provide as much cloth as they can for the Company, and will hope notwithstanding that they will be able to procure as much as they at first propos'd.

We are, worshipfull sir and sirs, Your affectionate friends and servants,

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

Fort St. George,  
17th March, 1739/40.

No. 36.

TO THE WORSHIPFULL JAMES HUBBARD ESQ.,  
DEPUTY GOVERNOUR & C. COUNCIL AT FORT ST. DAVID.

Worshipfull sir and sirs,

Agreable to your request in your letter of the 1st instant we sent you yesterday a thousand pagodas worth of our fanams, and shall be very glad if you can make them of use to you.

We observe what you write of Hussain Ally Caun; but how far soever he may bluster and talk big, we think he will not venture to commit any act of hostility against you. It is true not only he, but all the Nabob's sons act too much independant of their father; but however in an affair wherein he cannot be certain of the consequence, we think, he will first take the advice and consent of the Nabob; and we think we may be sure if he does that the Nabob will refuse the last till he has first wrote about it here. As to the Trichanopoly Braminy, if we are rightly inform'd, Chunda Saib made a prior demand for him and therefore if he was in your bounds, which you say he is not, we think he could not be delivered to Hussain Ally Caun,

till Chundah Saib had withdrawn his claim, though we think if the Braminy was with you we should consider whether it would be proper to deliver [him] up [to either], at least till it was made fully appear [that he] was indebted to the surcar.

You cannot be ignorant that it is no new thing among the Moors to say and threaten many things which they have no intention to perform when they have any expectations it will have an effect to extort money; and there are never wanting those about them who know where to place their agents in order to alarm those against whom their designs are levelled, and therefore though it may be prudent for you to be upon your guard, yet outwardly we think you should seem to discredit the reports which are given out in his name by imputing them to the contrivance of some idle fellows that delight in mischief, who have no other intention but to alarm and terrify your inhabitants. We are otherwise inclined to believe this is really the case, because we observe none of these threats came directly from Hussain Ally Caun. He will be cautious how he gives any such thing under his own hand. We should not fail to send it directly to the Nabob; and in fine if he should contrary to our expectations begin any hostilities or otherwise molest your affairs we doubt not we shall be able to make such effectual representation to the Nabob as will soon put a stop to his proceedings. We do not as yet think it proper to write about it to Arcot, believing it will be denied that Hussain Alley Caun has any such thought or intention, and that it is a notion that proceeds only from surmise and the apprehensions of our own people. However we are impatient till we hear the ten thousand pagodas stopt at Wolendore is clear'd. If there be any delay in the matter you must let us know it that no time may be lost in making the proper application to the Nabob.

We are, Worshipfull sir and sirs, Your affectionate friends and servants,  
 Fort St. George,  
 the 8th April, 1740.

RICHARD BENYON &C.

#### No. 47.

TO THE HON'BLE THOMAS BRADDYLL ESQR.,  
 PRESIDENT AND GOVERNOUR &CA. COUNCIL OF FORT WILLIAM.

Hon'ble sir and sirs,

Our last to you was the 14th instant by the *Princess Augusta* and *Bermudas* sloop, some days before which the Morattas enter'd this province and cut off our Nabob and his youngest son, with great part of the force he had with him; upon which his eldest son who was marching to his assistance, but with only three thousand horse, turned back and got with part of them into Velour, a fort to the southward of Arcot. The Morattas soon after enter'd Arcot, the capital of this province, and have plunder'd it of every thing they could find, as well as some of the adjacent towns. It is reported a treaty is on foot between them and Subderally Cawn in order to their leaving the province. But their demands are very high, and matters are far from being accommodated. Some parties of their horse have been plundering several towns within less than a day's journey of this place, and we are informed they have sent people to look out what water there is towards the sea coast. And if matters are not soon settled at Arcott it is more than probable they will visit the sea ports. We have put ourselves in the best posture we can to resist any attempts they may make upon us. But as we are in want of men and the *Prince William* arriving here the 21st instant from Bombay, and having on board about fourteen men which were returning to you from Bombay, we have order'd them ashore, and upon this emergency we have likewise taken twenty men more ashore of the *Prince William's* ship's company; we hope, however, to return these last soon on board again and to dispatch her to you in about fifteen days. She has two lack of rupees on board for your Presidency, which we advise you of, that you may order the sloops to meet her in Balasore road and take out such part of it as you think proper before she goes up the river.

We are, Hon'ble sir and sirs, Your most humble servants,  
 RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
 Fort St. George,  
 24th May, 1740.

WILLIAM MONSON—GEORGE TORRIANO.

No. 48.

TO CHARLES SIMPSON ESQR. CHIEF &CA. COUNCIL AT VIZAGAPATAM.

Gentlemen,

Concerning the present made your Nabob, as it was upon his accession there seems to be some pretence for his demanding it; but as those changes are not likely to be frequent we hope for the future he will have no expectations of any other presents from you more than what have been made to his father. Hereafter when you make any presents you should send a list of the particulars and the value of them in your letter.

We are, Gentlemen, Your affectionate friends,

Fort St. George,  
30th May, 1740.

RICHARD BENTON &CA.

No. 50.

TO THE WORSHIPFULL JAMES HUBBARD ESQR.,

DEPUTY GOVERNOUR &C. COUNCIL OF FORT ST. DAVID.

Worshipfull sir and sirs,

It is some time since that we coin'd a quantity of fanams on purpose to send you, but the roads have been so much infested ever since, sometimes by small parties of Moor's horse and now much more by the polygars, that we think it unsafe to send them overland. If the troubles continue till the *Mary* returns which will be in few days, we shall send them by her and hope they will reach you before the end of the month.

The necessity of your entertaining as many usefull people as you can for the defence of your place is but too obvious and we are sorry the state of our own garrison has put it out of our power to send you any assistance of that sort from hence; and we are as little able to send you a supply of the most usefull and necessary stores you write for, till the arrival of our Europe ships.

We have taken into consideration what you write about the ditch round your Fort, the Paymaster and gunner's survey and their report thereupon. We are very sorry so necessary a work as this is represented, and we beleive indeed to be so, should remain to be set about at this juncture, when it is to be wished all our fortifications were compleat and in the best repair, for though we are told the Morattas have agreed upon some terms with the Moors, in consequence whereof the major part of their forces are retired out of the proviace, yet the place where they are encamp'd is so near the borders and will give them so easy an entrance again whenever they please, for which they will not want a pretence, and as their scheme seems to be to plunder and destroy wherever they can overcome, we think you ought not to omit any thing which may be necessary for your security. And as what you propose is represented to be so and is also thought necessary to prevent the damage the Fort wall would be subject to, if this work you propose be longer omitted, you have our consent to set about it as soon as you can. We shall only remark that what the Paymaster and gunner propose, namely the raising the old wall of the ditch about three foot higher by way of a breast work for small arms, however proper it might be if you had a strong garrison, appears to us at present to be not only unnecessary, but also may be inconvenient. For, we take it, the few men you have to defend the fort ought in case of action to keep within, and in that case a parapet wall would hinder the effect of your fire arms from the points and curtains. We must not on this occasion omit to repeat our Honourable masters' directions, that whenever there is a real occasion for repairing their buildings or fortifications, you should always see that the work is substantially and well perform'd, and the Paymaster's accounts upon these and all other occasions must be carefully examin'd every month, the necessary previous directions being given him in Consultation in what manner to carry them on in order

to prevent the workmen's lavishing their money away in a needless manner and charging more for the materials and workmanship than is equitable, and that some of the Council should have an eye over the work while it is carrying on, as well as the Paymaster.

Having perused the account of stores worn out and decay'd and lost by weight last year you have our permission to write them off to profit and loss. You have also our consent to allow one serjeant and three corporals more to each company.

We are, Worshipfull sir and sirs, Your affectionate friends and servants,

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

Fort St. George,  
7th June, 1740.

### No. 52.

TO THE HON'BLE THOMAS BRADYLL ESQR.,  
PRESIDENT AND GOVERNOUR, &CA, COUNCIL OF FORT ST. WILLIAM.

Hon'ble sir and sirs,

\* \* \* \* \*

This province continues still in a very miserable condition. The Morattas, after they had plunder'd everything they could lay their hands on, agreed to quit the province upon condition of being paid a sum of money. Part has been paid them, but Subdar Alley Cawn, in whose name the agreement was made with them, is under great difficulty how to raise the rest. However the Morattas are for the present retired out of the province, but at so small a distance that they may enter it again whenever they please. Reports are various as to their future proceedings. Some say they intend to remain four months at Coloore, a province to the westward, till the waters of the Kistna are fallen, which being swelled at present hinders their return to their own country; others that they design to take their rout through Misore and retake Tritchanopoly, which the Moors took possession of about three years ago. In the meantime this province remains in anarchy and confusion. Subdar Alley Cawn continues still shut up in Velour with very few horse, and, wherever the rest are dispersed, we hear of none anywhere in a body, which gives the poligars an opportunity (which they make use of) to plunder and burn most of the villages that belong to the Moors. In a word it appears to us there is nobody in the province that has any inclination or indeed power or force to endeavour at a settlement, so that our only hopes are that Nazar Jung, son of Chicklas Cawn, will take some order about our affairs. But as to him also reports are various; some say he will himself be soon at Arcot; others that he designs to stay four months longer at Golcondah, but however that he has order'd two munsuddars to set out with a large body of horse for this province. This is all we shall trouble you with at present relating to the melancholly situation of these parts, where all business is at an entire stand and will continue so till somebody is fixed in the province that has authority and power to settle it.

\* \* \* \* \*

We are, Hon'ble sir and sirs, Your most humble servants,

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
Fort St. George, WILLIAM MONSON—GEORGE TORRIANO.  
13th June, 1740.

### No. 67.

TO THE HON'BLE STEPHEN LAW ESQR.,  
PRESIDENT AND GOVERNOUR &CA. COUNCIL OF BOMBAY.

Hon'ble sir and sirs,

\* \* \* \* \*

We wrote your honour &ca. very fully the 20th past relating to the irruption of the Morattas into this country. There remains a considerable sum yet due of that which was stipulated to be paid them, upon which account their vackeels at Arcot talk in very high terms. The Moratta army which we advis'd your honour

&ca. consisted of upwards of forty thousand horse under the command of Futta Sing and Rangoojee has been since join'd with twenty thousand more under the command of another General named Sudojee. They are now in the dominions of the King of Misore, and have raised great contributions. They seem inclined to march further to the southward before they return again to the northward. This province continues still without any government, and without any force to protect it. The late Nabob and his sons were greatly indebted to their soldiers, who refuse to list again till they are paid their arrears.

Two days ago our shroffs receiv'd letters in five and thirty days from Delly, that tell us the great Rajah Savajee Sing, was marching with a large army to besiege Chicklas Cawn in Agra. 'Tis certain his son Nazar Jung, who we expected in this province, and was actually on this side the Kistna, has repassed it and returned to Hyderabad, whether with intention only to protect the Deccan country or that he designs to march on to the assistance of his father is as yet uncertain.

\* \* \* \* \*

[We are], Hon'ble sir and sirs, Your most humble servants,

Fort St. George,  
9th July, 1740.

RICHARD BENYON, &CA.

No. 81.

TO MR. DUMAS, KT. OF THE ORDER OF ST. MICHAEL AND GOVERNOUR  
OF PONDICHERRY, AND TO THE GENTLEMEN OF THE SUPERIOUR COUNCIL THERE.

Gentlemen,

We have receiv'd the letter you did us the honour to write us dated the 24th instant N.S, and having seriously consider'd the purport of it, as also of that you wrote our Deputy Governour and Council of Fort St. David, we answer that we think a murther attended with circumstances of so much barbarity and malice, as that of the old Chouliar, which the four deserters from your garrison are suspected to be guilty of, ought not to go unpunish'd, and therefore we beleive it is no contravention to the protection of our flag to give up those men. We have accordingly order'd our Deputy Governour to deliver them to such persons as you shall send for them, upon your promise that if upon their tryal all or any of them shall be clear'd of the murther, you will forgive thom their desertion.

We have the honour to be with great esteem, Gentlemen, Your most obedient and most humble servant.

RICHARD BENYON &CA.

Fort St. George,  
16th August, 1740, O.S.

No. 90.

TO THE HON'BLE THOMAS BRADDYLL ESQR.  
PRESIDENT AND GOVERNOUR &CA., COUNCIL OF FORT WILLIAM.

Hon'ble sir and sirs,

\* \* \* \* \*

We congratulate your honour &ca. on the quiet your province was in after the revolution in the Subahship, and we wish we could tell you there was any settlement that could be depended on of the government of this province. Nazar Jung has sent some marks of his favour to Subder Ally Cawn, the late Nabob's son, but they are not such as give him any positive assurance of being continued in the government; at the same time he is still deficient in the sum promised to the Morattas, who yet continue so near us that the country is often alarm'd by their motions.

\* \* \* \* \*

We are, Hon'ble sir and sirs, Your most humble servants,

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—  
WILLIAM MONSON—GEORGE TORRIANO.

Fort St. George,  
11th September, 1740.

## No 93.

TO THE WORSHIPFULL JAMES HUBBARD ESQR.,  
DEPUTY GOVERNOUR &CA. COUNCIL OF FORT ST. DAVID.

Worshipfull sir and sirs,

\* \* \* \* \*

We have read over the Deputy Governour's paper deliver'd to your Board relating to the disturbances occasion'd by the disputes between the Right and Left-hand casts, the behaviour of Venecatatchalum and his robberies in this country, and the murder of the woman of the Right-hand cast at Cuddalore; and have read also all the other papers, and shall now give you our opinion and directions thereupon. As to the woman who lost her life, we make no doubt, from the several affidavits taken before the Deputy Governour, her death was occasion'd by some blow she receiv'd from some of the Left-hand cast in a riot at Cuddalore; but as it is not plain, who the particular persons were that gave her those blows, [we have] thought fit to order and direct that a fine be levied from the whole Left-hand cast of five hundred (500) pagodas; for it appears to us this riot was in consequence of the first dispute in which it is confessed they were the first aggressours. We hope also this will be looked upon as some satisfaction to the Right-hand cast and render it more easy for you to accommodate the remaining differences, which subsist between them.

As to the behaviour of Venecatatchalum, if it be as the Deputy Governour has represented it and what is set forth in the attestations taken before him, the most regular method is to complain thereof to the havildars or other governours of those parts of the country where he was guilty of the same, and to represent to them his robberies and other behaviour; and if they will not punish him and take effectual measures to prevent the like in future, you shall look upon yourselves at liberty to take your own measures.

\* \* \* \* \*

We are, Worshipfull sir and sirs, Your affectionate friends and servants,  
Fort St. George, RICHARD BENYON &CA.  
12th September, 1740.

## No. 103.

TO THE WORSHIPFULL ROBERT LENNOX ESQR.,  
DEPUTY GOVERNOUR &CA. COUNCIL OF FORT MARLBOROUGH.

Worshipfull sir and sirs,

\* \* \* \* \*

From what you wrote us by the *George* concerning the people of the 8 Dusans and your having enter'd into agreements with them so late as in April for their faithfull adherence [to the] Honourable Company, we could little have expected they would so soon have given proofs of their treachery. We are very sensible that Sidee Ibrahim who is at the head of them and to whom they are bigotted has for many years been wickedly enclined and has waited for an opportunity to put in execution his villainous purposes, nor do we suppose he has wanted abettors. We are well pleased to find his secret practices were so early discover'd and the troubles they might have occasion'd so happily prevented; and since by this accident those people are removed from that part of the country, who in no time can be said to have been well affected to the interest of our Honourable masters, we would recommend to you (as it is also near Marlborough) to have it repeopled with persons from whom you may expect at least more sincerity and better service, and let such Dupattys be appointed over them, in whom you can place some confidence in order to make that part of the country beneficial to the Honourable Company and to preserve it in tranquility.

If Sidee Ibrahim should return, we would have you use your utmost endeavours to destroy him, and on no account admit him to any pardon, for such repeated acts of treachery demand a just resentment; and we cannot think it consistent with good policy to harbour such a villain any longer. As to the people many of

whom were perhaps drawn away by the instigation of their heads, they may perhaps deserve some lenity; and concerning them we shall only further say that as the 8 Dusans have always been looked upon as one class, we think it will be most prudent to divide such as may be permitted to return in several other parts of the country, by which means they will be less able to enter into any combinations prejudicial to the general welfare; and time may perhaps wear out or at least lessen their attachment which they have to each other.

As the country has for several years been in peace, we hope by your care and prudent management it will continue so and be yearly improving. It is not to be doubted that the increase of the pepper trade will raise the jealousy of your neighbours, nor that there will be wanting instruments to increase and foment divisions and disturbances, whose faith is held in so little esteem. Nevertheless we apprehend such agents will be able to make but little impression on the bulk of the people as they well know their interest is inseparable from the Company's.

\* \* \* \*

We also send you nineteen topasses and eighteen Arabs to whom we have advanced two months' pay commencing the 1st instant. We have been obliged to keep the latter in pay for several months, as we have for some years been disappointed of listing any about the time of our dispatching a ship to your place. Several of them being mar[r]ied have requested leave to carry their wives with them, to which we have consented in expectation it may encourage them to stay with you the longer and save the charge of frequent recruiting and of their passage over. They have agreed to serve three years and we hope they will be of use to you being all able body'd men. There comes likewise William Richardson [from] Europe who arrived here the 8th April 1738.

\* \* \* \*

We are, Worshipfull sir and sirs, Your affectionate friends and servants,

RICHARD BENYON—RANDALL FOWKE—AUGUSTUS BURTON—NICHOLAS MORSE—WILLIAM MONSON—GEORGE TORRIANO.

Fort St. George,  
7th October, 1740.

No. 105.

TO THE WORSHIPFULL JAMES HUBBARD ESQR.,  
DEPUTY GOVERNOUR &CA. OF FORT ST. DAVID.

Worshipfull sir and sirs,

We wrote you last the 4th and 5th instant which we doubt not you received in due time. We shall now acquaint you that our Honourable masters are pleased to write us that contracting with the merchants is not the only thing necessary; they should be well looked after that they comply with their engagements and that at the close of the year an account must be drawn out in proper columns wherein is to be inserted the number of pieces of each sort contracted for, with the value, what money has been advanced, and what number of pieces have been brought in with their value. You must comply with this as near as you can and send us such account to go home in the packets by our January ships. They are also pleased to write us that your [ . . . ] cloth costs the same as the Salem, but sold lower about two shillings a piece [ . . . ] each number, that therefore endeavours should be used to get it cheaper. They observe that by what passed between you and us we both were sensible of its inferiority so that the prices being alike surprized them. Here follows copy of their 31st paragraph dated the 21st of March last. "We observe with concern that our servants at Fort St. David complain of a want of merchants, having but two only engaged in our investment. It would be a great pleasure to us could some means be found out to engage a number of substantial men to reside within our bounds. We are apt to think that it might be brought about by granting them some particular priviledges with respect to their several casts, which they are generally so fond of

“and at the same time are not detrimental to us. We recommend this affair to your particular and serious consideration. We are told that indigo may be cultivated at Fort St. David; you will do well to make a tryal.”

We have said in answer thereto that we should correspond with you concerning the engaging a number of substantial merchants to reside within your bounds; and if that could be effected we thought it would not be difficult to engage them in the Company's business in the present method. But we beleive it would [be] too dangerous an experiment to attempt it by indulging any of them with any particular priviledges with respect to their casts, that both sides were too tenacious of their rights, and we apprehended the troubles between the casts this year at your place [ . . . ] from one of the Company's merchants [encroaching] too much upon the privileges of the [opposition]. If you can point out to us any other method that will answer the end proposed by the Company you will let us know it as soon as possible.

Concerning the indigo we have said that it is the growth of this south coast, that a great deal is planted here and at Fort St. David on such grounds as are too high to sow paddy on, and that in January we shall send some of the different sorts for a tryal. We would have you, therefore, purchase a candy of three or four sorts; but, that the freight may be the easier, we beleive the higher prized to be the most acceptable if it be good in proportion.

Having some dispute with our merchants here relating to the cost of their cloth bought at Salem, we would have you send us up as soon as possible copy of the accounts deliver'd in by your merchants of the cost of theirs, specifying therein the first cost, whether they pay any brokerage or only keep servants there, what juncans they pay and how much at each place, what they charge for oxen hire or other land carriage; in fine as full and particular an account as you can give us of the first cost and all the different charges till it is in your godowns.

Mr Borlace Staceywriter took his passage to your place on the sloop *Carolina*. He arrived here the 18th August on the *Colchester*, and has been paid his salary here to the 25th September with his diet money and allowances for the month of September.

We have permitted Mr. Henry Powney to stay here; his salary must be paid with you to the 25th September and his other allowances to the 30th.

We are, Worshipfull sir and sirs, Your affectionate friends and servants,  
Fort St. George,  
[ . . . ] October, 1740. RICHARD BENYON, &CA.

TO THE WORSHIPFULL JAMES HUBBARD ESQR.,

DEPUTY GOVERNOUR &CA., COUNCIL OF FORT ST. DAVID.

Worshipfull sir and sirs,

This serves by order of the President and Council to accompany a recruit of thirty men for your garrison, as per list hereto annexed under the command of Richard Huntley and William Matthews, Serjeants, who are to be returnd hither. Inclosed is an account of disbursements on them amounting to Pags. 32-24-0 for which you will please to give this Presidency credit.

I am with respect, Worshipfull sir and sirs, Your most humble servant,  
Fort St. George,  
21st October, 1740.

JOHN SAVAGE.

No. 114.

TO THE WORSHIPFULL JAMES HUBBARD ESQR.,  
DEPUTY GOVERNOUR &CA., COUNCIL OF FORT ST. DAVID.

Worshipfull sir and sirs,

We have received your severals of the 24th and 31st ultimo, and with regard to the account to be sent us in December of your investment, if you insert the money first advanced and since paid your merchants on one side, and enter on the other an account of the numbers of pieces of each sort of cloth brought in and embaled in one column, and the value in another according to the prices of the several numbers as charged in your invoices, and for what is not embaled the number of pieces to be inserted and the value computed according to the medium price of that which has been sorted, we believe the account will be as compleat as you can make it, and we hope will be satis[factory to our Hon'ble] masters. We observe by your letter your merchants have an advance of fifty thousand pagodas in hand. When they first proposed to have so much advanced them, they proposed at the same time to bring in three thousand bales; but as they afterwards told you they could have no hopes of getting that quantity of cloth, we should have thought a less advance had been sufficient for what they hoped they should bring in. We have no doubt but what your merchants are very secure men, but the reason which induces us to mention this now is that we apprehend we shall be strait'ned for cash before the arrival of the next ships.

We observe the answer you gave to our Honourable Masters' paragraph relating to the means of getting a number of [substantial] merchants to reside within your bounds. They have been at a great expence in fortifications to secure the merchants and have given all other encouragements that could be reasonably expected. The rest depends upon their servants and we doubt not it will be your care to see that due and impartial justice is administered to all your inhabitants, and that they are allowed a free and entire liberty of trade. This appears to us the most probable means to induce those who are at present with you to continue and to encourage others to settle under your protection. They [ . . . ] or expect greater advantages in the other European settlements, and if care be taken to [preserve] the same with you, we are willing to hope that in time the trade will encrease though it has hitherto been but small. We can only recommend to you [ . . . ] encourage it as much as in your [power].

The two men that re [ . . . ] from St. Thomas's Mount were sent forward again few days after.

Upon some motions of the Morattas the country is again alarm'd and many of the inhabitants come daily in here. We hope it proceeds only from a needless fear, and that the Nabob will be able to accommodate [ . . . ] matters with the Morattas, but however [you] will do well to keep upon your guard.

We are, Worshipfull sir and sirs, Your affectionate friends and servants,  
Fort St. George,  
8th November, 1740.

RICHARD BENYON &CA.

# SELECTIONS FROM THE MADRAS RECORDS.

## FORT ST. DAVID CONSULTATIONS, 1740.

## CONSULTATION, SATURDAY, FEBRUARY 9, 1740.

The last year's investment being concluded it was thought necessary to begin to consider how to make a provision of cloth for this year. The Deputy Governour hereupon acquaints the Board that to forward this design he has at last perswaded Irshapa Chitty to join with Nella Tombe and Shacup Tombe, whom he thinks to be a very substantial man, for carrying on the business this year; they are accordingly admitted and propose to bring in cloth to the amount of three thousand bales by the end of January next, on following conditions:—

That the advance money in their hands be made up fifty thousand pagodas, and that no agents from the Madrass merchants be employ'd to buy goods at the same places they do, that is at Salem, Chemanackpollam and Worriapollam. We think they may be trusted with the sum they mention and that less than that will not be sufficient to carry on the investment largely at the places they must send money to.

They propose the 3,000 bales to consist nearly of the following goods.

	Bales.
Long cloth—Salem ... ..	1,000
Long cloth—Chemanackpollam ... ..	1,000
Long cloth—ordinary ... ..	500
Do. fine of 15 and 12 calls, and middling of 10 calls with salempores of 9, 12 and 15 calls and soot romals to the quantity indented for last year in all about ... ..	500
	3,000

They assure us they have no doubt of providing this quantity unless hindered by disturbances in the country; they refuse to enter into contracts, or subject themselves to penaltys in case of a failure. The cloth of the several sorts is to be on the same brokerage as the merchants have had this last year.

We being credibly inform'd that the price of fanams at Salem is establisht at 23½ per pagoda by Nanjan Chitty, which us'd to be at 24½ to 25, and is confirm'd by the King of Misore, so that if we set about providing cloth there, this must be submitted to, and there will be little hopes of ever getting it alter'd for the better hereafter, we are of opinion if we let alone providing any goods there sometime, and the French merchants do the same, that Nanjan Chitty will certainly be oblig'd to drop his engrossing the fanams. Agreed that it be propos'd to the Honourable President and Council, whether it may be proper for the Company to let alone that cloth for a year, should we not be able to bring down the prices of fanams sooner, or to submit to the prices put upon them, and to set about providing this cloth as soon as possible, and likewise to represent to them what terms our merchants offer towards an investment for this year.

General letter from the Honourable President and Council of the 5th instant read permitting us to send some persons with a present to Hussain Ally Cawn, the Nabobs youngest son, when he arrives at Trivedy, and they will send us overland some embost cloth and velvetts for that purpose.

JAMES HUBBARD—EDWARD CROKE—THOMAS EYRE—EDWARD HARRIS—ROBERT ALLEN—CHARLES FLOYER.

CONSULTATION, FRIDAY, FEBRUARY 29, 1740.

The charges extraordinary in the Paymaster's account for last month, are in the following articles—

JAMES HUBBARD—EDWARD CROKE—EDWARD HARRIS—ROBERT ALLEN—CHARLES FLOYER.

## CONSULTATION, MARCH 28, 1740.

Our merchants being sent for in, are told that the Honourable President and Council cannot comply with their proposal in relation to their merchants with drawing their people from Salem, who notwithstanding continue to assure us, they will still use their best endeavours to provide all the cloth they can, but they can't have hopes it will amount to near so much as they promis'd, had their proposal been yeilded to.

Hussain Ally Cawn, youngest son to the Nabob, having come to Trividy the begining of this month, the Deputy Governour acquaints us agreeable to a general letter of the 5th February, on his making some stay so near us, he had accordingly prepared to send him a present of about four hundred pagodas, but that before he could send it, he was advis'd by the Subidar of that place, as by Hussain Ally Cawn's directions, that it would not be excepted [*sic*], for that he was very much incens'd against us; that the reasons he gives out for this, are said to be, first, that we sent no present and took no notice of him when he was at Trividy in October last.

This we remember was occasion'd by the expecting his brother Subdarally Cawn to come also at that time, and that then one visit and present might have serv'd for both, especially, as we had then no directions from the Honourable President and Council to address Hussain Ally Cawn, nor did we think him a person of that consequence to require the troubling them about him.

That another motive of his displeasure, he understands to be on account of a Trechenopoly Braminy, who came into the bounds some months ago, whom he demands to be delivered up to him; that it is true that such a Braminy was in the bounds about two months ago, but that by the best information he can get that Braminy was gone from hence before Hussain Ally Cawn's first demand came to him, as he had assur'd him, in answer to it, as by the copy he now produces together with the two letters of Hussain Ally Cawn's demand which though without date are endors'd and enter'd in the book as received the [*lacuna in the original*].

Order'd, that this be represented to the Honourable President and Council for their directions how to behave in case he should persist, or give us any disturbance.

Our merchants inform us that the 22d instant they sent twenty-six peons with ten thousand pagodas for Salem, which peons and money were stopt the 24th at Wolendore, a place near forty miles off. The pretence, they say, the subidar of that place gives for it, is, that Tombe Chitty's people have lately brought their cloth another way, and not through his juncan place, contrary to their agreements made with him.

Moota Chitty is hereupon call'd, who does not deny that they have done so, and says he has nothing to do but to receive the cloth, and all the directions relating to the bringing it, or other matters, are not given by him.

The Deputy Governour acquaints the Board that upon the first advise of it, he wrote to the subidar for the immediate release of the money, and hopes it will have occasion'd it to be releas'd before now, which he is not yet advised of, but should not doubt it would soon be done, were it at any other time, but it happening at this unlucky juncture when Hussain Ally Cawn pretends to be so much displeas'd is fearfull when he hears of it, that he may seize on it.

Agreed therefore, that this relation be advis'd of in a general letter to the Honourable President and Council (with the aforementioned), for their directions likewise in this business.

JAMES HUBBARD—EDWARD CROKE—EDWARD HARRIS—ROBERT ALLEN—CHARLES FLOYER.

## CONSULTATION, TUESDAY, APRIL 29, 1740.

JAMES HUBBARD—EDWARD CROKE—THOMAS EYRE—EDWARD HARRIS—ROBERT ALLEN—CHARLES FLOYER.

#### CONSULTATION, TUESDAY, MAY 15, 1740.

\* \* \* \* \*

The fort ditch being in a ruinous condition the Paymaster and Gunner are appointed to survey it, and to report what is necessary to put it into a defensible condition the next Consultation.

Upon reviewing the order of the guns &c. on the several works, it was observ'd at Cuddalore that another point near the factory and the centre of the river side of the town, would be very usefull for the defence there, where there is no wall, to flank the distance from the late made clay point to the Maulim Bastion, and that by a parcel of good stone and chunam'd work lying in the ruins on the other side of the river, such an one might be rais'd at a small expence. Order'd, that a plan be drawn, and that the Paymaster send for those materials and begin to raise a bastion there according to the plan, as soon as can be.

It was also observ'd that there are no parapet walls between the guns on the east and south sides of the fort, which being thought necessary for preservation of the few men we have in garrison to defend the extensive works, as well as to conceal that weakness [*sic*] in case of any disturbance from the present confusions in the country, Agreed that the parapetts be continued on those sides with foot banks, to fire with small arms over them, of the same height as those all round on the other sides of the fort, and that it be done as soon as possible.

JAMES HUBBARD—EDWARD CROKE—THOMAS EYRE—EDWARD HARRIS—ROBERT ALLEN—CHARLES FLOYER.

#### CONSULTATION, SATURDAY, MAY 31, 1740.

The place being exceedingly in want of fanams, agreed that we write to the Honourable President and Council to supply us with four or five thousand pagodas worth as soon [as] possible, as we have at present but barely sufficient to pay the military and peons for this month; but should the troubles in the country make it unsafe to send us any overland, in such case, to desire their permission to coin silver fanams, as we believe we can easily get silver enough from Pondicherry for that purpose, which if they permit us to do, to desire also they will be pleas'd to send us directions concerning the weight and fineness of them, and whether we shall make them according to the Madrass chop, or any other.

Agreed that the Deputy Governour entertain what gunners, lascars topasses, and peons he thinks necessary, as the Morattas are near us, and it being at present uncertain which way they will march.

The Tovenopatain Customer represents that the poligars fees collected by him have not been sufficient for some months past to pay the talliares wages, and in order to prevent their quitting the employ, he has been oblig'd to make good the deficiency out of the customs, which in all comes to pags. 91-10-0, he is allow'd to deduct it from his account accordingly.

Lieutenants Morgan and Amyand deliver in a report, representing the urgent necessity there is for increasing the number of inferiour officers in the military, and hope they may be allow'd the former number of thirteen corporals there were in each company before the reducement and one serjeant extraordinary, in consideration of the guards being encreas'd.

Agreed that this be represented to the Honourable President and Council for their directions herein, and that the report be enter'd after this Consultation.

The Storekeeper produces an indent for stores wanting, and in particular for guns, gunpowder and iron, it being thought very necessary to have a store of them in the garrison, especially at this unsettled time in the country, agreed that it be inclos'd to the Presidency, and to desire their compliance with it in every respect, with what they can spare now, and the remainder when the Europe ships arrive.

The Paymaster and Gunner agreeable to an order of Consultation of the 15th instant, deliver in their report of the ruinous condition of the walls of the fort ditch and the best manner that it may be made defensible, with an estimate of the cost of it, amounting to pagodas 4226-13-70, as more fully set forth in those papers, which are order'd to be enter'd after Consultation, and inclos'd to the Honourable President and Council, for their inspection and directions thereupon.

Some of the guard rooms under the points at Cuddalore, and particularly those under the Chingee and South-West points being in a crazy condition, and in several respects very inconveniently situated, agreed that instead of repairing them where they stand, it would be better worth the charge to rebuild them upon the points, as well for the security of the guards, as the peons may be better kept together, and all ready upon duty, order'd therefore that they be rebuilt upon the points.

JAMES HUBBARD—THOMAS EYRE—EDWARD HARRIS—ROBERT ALLEN—CHARLES FLOYER.

TO THE WORSHIPFULL JAMES HUBBARD ESQR.,  
DEPUTY GOVERNOUR, &CA.  
COUNCIL OF FORT ST. DAVID.

Worshipfull sir and sirs,

This humbly serves to represent to your Worship &ca. Council, the urgent necessity for encreasing the number of our inferiour officers, having no more at present but ten serjeants and ten corporals in each company, which are insufficient to supply all the guards of this garrison. Therefore we hope your Worship &ca. Council will take into consideration to allow us the former number of thirteen corporals we had in each company before the reducement, as also a serjeant extraordinary each, in consideration of the guards and garrison being increas'd.

We are, Worshipfull sir and sirs, Your most obedient humble servants,  
Fort St. David,  
31st May, 1740.

JOHN D' MORGAN—EDWARD AMYAND.

TO THE WORSHIPFULL JAMES HUBBARD ESQR.,  
DEPUTY GOVERNOUR OF FORT ST. DAVID &CA. COUNCIL.

Worshipfull sir and sirs,

Agreeable to an order of Consultation of the 15th instant, on observing the ruinous condition of the trench under the fort walls on the west and north sides, we are to represent to your worship &ca. that we have look'd into it, and observing that the fausebray walls have very much yeilded outwards, especially on the north side, and we have had those foundations laid open in several places, and find them in most places but about four foot deep from the common area of the ditch, as it

is at present fill'd by the decay of the facing or lining of brickwork on the outside, so as in some places to be burst in by the weight of earth, and in others entirely lost, the fausebray walls appear to us of such consequence that a breach in them will greatly endanger the fort walls, and especially as the west curtain has been long considerably sunk, so we think there should be no time lost for strengthening the outer wall, to avoid a much greater expence by any further damage to the fort walls; the best way we can propose to secure them would be by laying an outer foundation on wells and raising on it a kind of false base to the fausebray wall all along, of brick and chunam work, to taper off to it at about five foot high, and then we believe the old wall may be safely rais'd about three foot higher by way of a breastwork for small arms, and be of good service, for clearing of the trench, which cannot so well be done from the walls above.

As the moat would be of more hurt than advantage to the defence of the fort, if the outer facing be not lin'd with brickwork, to keep it up so as not to give entrance to an enemy, we make no question of the necessity of doing that also, and have therefore notwithstanding the expence, measur'd and made an estimate of the work as by the account subjoind, and though the continuance of the moat on the east side of the fort is not so immediately necessary with regard to the preservation of that wall, yet as the continuing that work to the river side, that the water may flow from the river all round it, would make it more defensible and entire, we have just now mention'd the amount only from the measurage of the other work, and to be submitted with the rest to your Worship &ca. consideration by, Worshipfull sir and sirs, Your most obedient humble servants,

THOMAS EYRE—PHILIP BAKER.

Fort St. David,  
31st May, 1740.

Calculate of the cost and charges of facing the fort moat with brick work, laying an additional base to secure the fausebray wall and a parapet wall upon it on the west and north sides of the fort, and first.

JAMES HUBBARD—THOMAS EYRE—EDWARD HARRIS—ROBERT ALLEN—  
CHARLES FLOYER.

CONSULTATION, TUESDAY, JULY 22, 1740.

General letter from the Honourable President and Council of the 12th instant read directing us to provide as many as we can of the five thousand peices of soot

romals, according to the muster of last year, besides the four hundred pieces of the muster lately sent us.

We must not omit to place at the foot of our letters an account of what cloth embal'd, and how much at the washers, beaters and in the merchants godowns, as it will help them to make some computation, when they come to advise the gentlemen in Bengal what tonnage they shall want from thence in December and as usual put the question to us what number of bales we may expect to have ready by that time.

Letter from Mr. Secretary Savage of the 19th instant read, advising that the Honourable President and Council have resolv'd to return the ship *George* to us in a few days, and that we must get sort'd and embal'd all the cloth we can have ready by the time she arrives with us.

Agreed that we acquaint the Honourable President and Council in answer to their above favour, that our merchants have brought in this time on this year's investment 800 bales reckoning what sent up to Madrass, and what at the washers, beaters and dyers, that we have discours'd our merchants how much more they think they can bring in by the end of December, who reply as follows—that it is impossible for them to make any tolerable calculate, that there is hardly any place but Chemanackpollam, from whence they can depend with any certainty of having cloth brought, and that cloth is grown so indifferent of late, that a great part of it is always turn'd out: some quantitys they say they have hopes of receiving from Worriapollam, this is more uncertain, but besides what comes from those two places, they have but little dependence on any other. They add the brokers that had money of them for fine cloth and cloth for dying, have some time since return'd it, being unwilling to set about any thing at this dangerous time. The risque of sending money to Salem is so very great, that they will not venture to take it upon themselves, and therefore they can expect no more cloth from thence, but about 50 or 60 bales, the amount of the ballance they have there and upon the whole say, if they can bring in five or six hundred bales more from this time to the end of December, it is as much as they can expect, but can no ways promise it.

Order'd that the washers and beaters be hast'ned to get ready what cloth they have in cure, to sort and embale as much as we can against the arrival of the Honourable Company's ship *George*.

JAMES HUBBARD—EDWARD HARRIS—ROBERT ALLEN—CHARLES FLOYER.

CONSULTATION, THURSDAY, JULY 31, 1740.

\* \* \* \* \*

\* \* \* \*

JAMES HUBBARD, EDWARD HARRIS—ROBERT ALLEN--CHARLES FLOYER.

#### CONSULTATION, TUESDAY, AUGUST 12, 1740.

Letter from the Governour and Council of Pondicherry of the 22d instant, new stile, read, the purport of which was to acquaint us, that a poor old man of sixty years of age had been found dead the next morning after four of their military had deserted their garrison and come hither, being stab'd in several places, and it might be presum'd from their own confessions, he had been kill'd by them, but that it could not be in their own defence, as this poor man had no arms nor ever carry'd any, nor was there any body whatever that pursued them, and they therefore desire those men to be deliver'd up to them, upon promise of pardon, if they are guilty of no other crime than desertion, but that they may be left to be punisht according to their laws, should they be found guilty of the murther they were suspected of.

Messrs. Du Laurens and Maraut expatiated largely on the heinousness of this fact, according as it appears at present, and of the ill consequences of protecting such villians, and that it would be much better there were no agreements to diliver up deserters at all, than that any should find protection, by adding murther to desertion—with much more to the same purpose.

Agreed, that we give the following answer to the letter brought us by Monsr. Du Laurens and Maraut, from the Governour and Council of Pondicherry. That we have received their letter on the subject of the four deserters of their garrison lately come hither, and of the murther they were suspected to have committed—and have heard with attention what Messrs. Du Laurens and Maraut have been pleas'd to acquaint us with further in relation to this affair and upon the whole it seems very probable to us, that these four deserters did commit that murther, and with a view of preventing their being return'd back, as they would have been, had they been guilty of desertion only, but that we cannot of ourselves comply with

their request in sending them back, as it is a case we have had no example of here, but we will represent this matter in the fullest light we can to the Honourable President and Council of Fort St. George for their orders in this affair, which when we receive, we will immediately advise them thereof.

Order'd that the original letter from the Governour and Council of Pondicherry, with copy of our answer, be inclos'd to-morrow to the Honourable President and Council to represent this affair, and to desire their directions hereupon.

JAMES HUBBARD—EDWARD CROKE—THOMAS EYRE—EDWARD HARRIS—ROBERT ALLEN—CHARLES FLOYER.

CONSULTATION, FRIDAY, AUGUST 15, 1740.

We having no more then seventy-throe Europeans centinels in both companys, and of these twenty-eight are old and hardly fit for service. Agreed therefore that we write to the Honourable President and Council to supply us with as many good men as they can spare, we having had none sent us, either last year or the year before.

JAMES HUBBARD—EDWARD CROKE—THOMAS EYRE—EDWARD HARRIS—ROBERT ALLEN—CHARLES FLOYER.

CONSULTATION, MONDAY, AUGUST 29, 1740.
